## WHO WE SERVE

---

The TML Risk Pool is an intergovernmental, risk-sharing partnership, formed in 1974 by the Members of the Texas Municipal League for the purpose of offering workers' compensation, liability, property, and – more recently – cybersecurity protection to Texas municipalities and other eligible local governments.

## GOVERNANCE

---

The Pool's mission, membership philosophy, core values, objectives, and overall policy governance are set by the Board of Trustees, which consists of elected and appointed officials who represent the Membership.

## MISSION STATEMENT

---

The Mission of the Texas Municipal League Intergovernmental Risk Pool is to facilitate and empower a partnership amongst Texas municipalities (and other eligible local governments) by providing a stable and economical source of risk financing and loss prevention services.

## MEMBERSHIP PHILOSOPHY

---

- **Shared Purpose:** The Pool is a partnership with a collective commitment to providing stability, security, and financial protection for municipalities and municipal interests. Membership in the Pool is not merely transactional; it is a collaborative relationship founded on mutual trust, resource pooling, and the shared goal of safeguarding public services.
- **Collective Resilience:** Members enhance their capacity to manage risks and recover from setbacks, ensuring the continuity of vital services for the communities they serve. Each Member has an obligation to act responsibly and in alignment with the Pool's Mission, contributing to the partnership's overall strength and effectiveness.
- **Equitable Responsibility:** The Pool ensures that contributions, benefits, and costs are shared fairly among Members. Governance, eligibility criteria, and rating adjustments (including rates, deductibles, and limits) are applied thoughtfully to address exposures or actions that do not align with the Pool's standards or the spirit of partnership, maintaining fairness and accountability.
- **Long-Term Sustainability:** By adapting to evolving risks and maintaining financial stability, the Pool ensures enduring value and support for its Members, securing the ability to serve municipal interests effectively over time.

## CORE VALUES

---

- **Public Service:** Serving the public good for the benefit of local governments and their tax-paying citizens.
- **Fiscal Responsibility:** Responsibly managing our Members' pooled funds for the protection of their financial stability.
- **Operational Excellence:** Delivering excellent member service in all components of our risk financing and loss prevention services.
- **Integrity:** Serving with honesty, integrity, and professionalism.

## OBJECTIVES

---

- Educate Members about avoiding and reducing risks.
- Control losses with effective legal defense and claims handling.
- Anticipate emerging risks.
- Be aware of and anticipate emerging state and national trends.
- Provide appropriate coverages that meet the needs of the Pool's members.
- Serve as an expert source of information on risk management for cities, other units of local government, and the Texas Municipal League.
- Develop, train, and retain highly qualified staff.

## FINANCIAL & OPERATIONAL HIGHLIGHTS

### REVENUES OVER (UNDER) EXPENSES

FISCAL YEARS ENDING SEPTEMBER 30, 2025 & 2024

(In Thousands)	2025	2024
Revenues Over (Under) Expenses BEFORE Unrealized Gains/(Losses)	\$50,709	\$31,941
Unrealized Investment Gains/(Losses)	11,561	75,488
<b>Revenues Over (Under) Expenses AFTER Unrealized Gains/(Losses)</b>	<b>\$62,270</b>	<b>\$107,429</b>

### NET POSITION

AS OF SEPTEMBER 30, 2025 & 2024

(In Thousands)	2025	2024
Net Position BEFORE Cumulative Unrealized Gains/(Losses)	\$438,579	\$390,226
Cumulative Unrealized Investment Gains/(Losses)	(5,003)	(16,564)
<b>Net Position AFTER Cumulative Unrealized Gains/(Losses)</b>	<b>\$433,576</b>	<b>\$373,662</b>

## Total Contributions - \$365,966,859

At September 30, 2025

# Letter from the Chair

## BUILDING ON 50 YEARS OF STRENGTH, FOCUSED ON THE FUTURE

Dear Fellow Members:

On behalf of the Texas Municipal League Intergovernmental Risk Pool Board of Trustees, I am honored to present the Pool's 2024-25 Annual Report. Strong financial results this year supported our commitment to serving Members while maintaining long-term strength and stability. Having recently celebrated our 50th anniversary, we continue a new era of clarity, momentum, and purpose. The milestone year reinforced the enduring value of our partnership, and it strengthened our resolve to continue delivering unmatched coverage, stability in costs and loss prevention services to the cities and other local governments we serve.

Our efforts are always guided by the Pool's Core Values: fiscal responsibility, public service, integrity, and operational excellence, and the Pool's Mission Statement was updated in 2025 to more clearly encapsulate what we do. Our mission is now *"to facilitate and empower a partnership among Texas municipalities by providing a stable and economical source of risk financing and loss prevention services."*

"Stable" and "economical" aren't flashy words, but in our world, they're sacred ones. They mean cities can plan budgets confidently. They mean first responders have facilities and equipment that keep them safe. And they mean that, when disaster strikes, there's a dependable partner ready to help rebuild – not just reimburse.

The Board also adopted a formal Membership Philosophy in 2025, which describes the character of the partnership:

1. Shared Purpose – We exist to protect municipal interests so you can serve your citizens.
2. Collective Resilience – When one city faces hardship, it benefits from the strength of the partnership among all Member cities.
3. Equitable Responsibility – Every member contributes fairly and according to its risk and reaps the benefits of shared protection.
4. Long-Term Sustainability – We make decisions today that are aimed at safeguarding your tomorrows.

This philosophy gives us a common language for explaining what makes the Pool different from the commercial market – and why this model endures when others fail. Together, our guiding statements form a coherent whole:

- The Mission tells us *what we do*.
- Our previously-developed "Why" statement – *to partner with local governments so Texas communities are stronger, together* – reminds us *why we do it*.
- The Core Values define *how we do it*.
- And the new *Membership Philosophy* is the final piece that defines *who we are*.

This framework ensures that every operational decision – whether it's pricing property coverage or offering a cyber grant – aligns with our shared purpose.

The Pool also advanced significant initiatives to enhance the member experience and strengthen operational excellence. One of the most meaningful efforts this year has been the continued planning for the future Texas Municipal Center. Following foundational work completed in 2024, the Board advanced into critical next phases across 2025, including selecting a site in Georgetown. More work lies ahead, and this work represents a shared vision between the Pool and TML to create a flexible, accessible, and modern facility that expands educational and meeting space, supports future growth, and enhances service to the municipal community we proudly support.

Over the past year, we implemented several additional initiatives that enhance Member experience. The following are just a few examples:

- We continued to refine and expand our cyber coverage and security resources, including enhanced grant support and access to advanced analytics services, enabling members to better prepare for and respond to evolving cyber risks.
- We intensified loss-prevention outreach and training efforts, particularly focused on law enforcement excellence and roadway safety.
- We continued modernizing member service tools through technology roadmap progress and process improvements.
- We updated the Pool's compensation and classification plan for Pool employees.
- We developed artificial intelligence guidelines.

These investments demonstrate our commitment to operational excellence across all areas of service.

Thank you for your continued trust and collaboration. The strength of the Pool is rooted in the partnership among our Members, and it is our privilege to serve you with integrity, accountability, and an unwavering commitment to excellence. Together, we will continue building on over 50 years of progress — shaping a stable and innovative future for the next generation of Texas communities.

Sincerely,

Bert Lumbreras  
Chair, Board of Trustees  
Texas Municipal League Intergovernmental Risk Pool

## INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees  
Texas Municipal League Intergovernmental Risk Pool

### **Opinion**

We have audited the accompanying financial statements of each major fund of the Texas Municipal League Intergovernmental Risk Pool (the "Pool"), which comprise the statements of net position as of September 30, 2025 and 2024, and the related statements of operations and changes in net position and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements of each of the major funds referred to above present fairly, in all material respects, the financial position of Texas Municipal League Intergovernmental Risk Pool as of September 30, 2025 and 2024, and the changes in its net position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Texas Municipal League Intergovernmental Risk Pool and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Change in Accounting Principle**

As described in Note 2 to the financial statements, the Pool has adopted GASB Statement 101, Compensated Absences. Our opinion is not modified with respect to that matter.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Texas Municipal League Intergovernmental Risk Pool's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Texas Municipal League Intergovernmental Risk Pool's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Texas Municipal League Intergovernmental Risk Pool's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, ten-year claims development information, schedule of changes in net pension liability and related ratios, schedule of employer pension contributions, schedule of changes in OPEB liability and related ratios, and schedule of employer OPEB contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Other Information Included in the Annual Report**

Management is responsible for the other information included in the annual report. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

*Amarino LLP*

Austin, Texas

December 12, 2025

# Management's Discussion & Analysis

# MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis (MD&A) of the Texas Municipal League Intergovernmental Risk Pool (Pool) provides a narrative overview and analysis of the financial activities of the Pool for the fiscal year ended September 30, 2025. The information presented herein should be considered in conjunction with the detailed information provided in the basic financial statements, notes to financial statements, and required supplementary information.

## OVERVIEW OF FINANCIAL STATEMENTS

---

### FUND ACCOUNTING AND FINANCIAL STATEMENTS

The Pool has six operating funds that are accounted for as self-sustaining business-like activities or enterprise funds. The Pool's six funds are the Workers' Compensation, Liability, Property, Cyber, Reinsurance, and Stability Funds that by policy are classified as major funds.

The Statement of Net Position presents the Pool's assets, liabilities, and net position at the end of the two most recent fiscal years. The Statement of Operations and Changes in Net Position shows how the Pool's Net Position has changed during the two fiscal years. All interrelated balances and transactions have been eliminated and are presented in a separate column. The Statement of Cash Flows shows cash received and used by the Pool during the year and presents a reconciliation of revenues over expenses to net cash provided by operating activities.

### UNREALIZED INVESTMENT GAINS (LOSSES)

Governmental Accounting Standards Board (GASB) Statement 31 requires the Pool to include unrealized investment gains and losses as a component of investment income. Unrealized investment gains (losses) occur when the market value of investment holdings fluctuates. Due to the volatility of market conditions and the resulting unrealized gains (losses), as well as the Pool's intent to hold most investments until maturity (in the case of bonds), the Pool makes many key financial decisions, including rate setting, without considering unrealized gains (losses). Some of the financial information and analysis in the MD&A separates unrealized gains (losses) to provide a clearer picture of the financial results of the Pool.

## FINANCIAL HIGHLIGHTS AND ANALYSIS

---

The financial results in 2025 (Fiscal Year 2024 - 25) were strong as higher contributions and investment income offset higher losses for some of the coverages provided by the Pool; and the Property Fund continued on its planned recovery trajectory, reflecting steady progress towards stabilization after some major losses over the past few years. Additionally, the Cyber Fund was established in 2025 with a Board-approved equity transfer of \$10 million from the Liability Fund. The Cyber Fund provides coverage against cyber threats and data breaches.

Members' contributions rose to support claim losses, investment income was the strongest in over 10 years, and Members' Equity (Net Position) continued a path of recovery and stability. Member contributions to the Pool help pay for claim losses and are based on each Member's risk profile and claim loss experience. Catastrophic or shock losses are generally funded by the Pool's Members' equity. To assure that the Pool can withstand catastrophic losses, a capital adequacy assessment is performed to determine a target range for Member's equity to not only

withstand shock losses, but to continue as a financially strong risk pool after such losses. Finally, the Pool's investment return-risk profile supported by diversification of investments, policy provisions and benchmarks designed to match liabilities with investments, and favorable financial markets for bonds and stocks led to another strong investment year.

<b>CONDENSED STATEMENTS OF OPERATIONS AND CHANGES IN NET POSITION</b>				
AS OF SEPTEMBER 30, 2025, 2024 & 2023				
(\$ In Thousands)		2025	2024	2023
<b>REVENUES</b>				
	Earned Contributions	\$365,967	\$331,329	\$282,155
	Reinsurance Expense	(44,888)	(37,793)	(26,514)
	Investment Income (w/Unrealized Gains/(Losses))	48,607	107,533	22,637
	Other Revenues	1,308	1,156	1,030
	<b>TOTAL REVENUES</b>	<b>370,994</b>	<b>402,225</b>	<b>279,308</b>
<b>EXPENSES</b>				
	Net Losses and Loss Adjustment Expenses	246,830	236,425	220,863
	G&A, Pension and Contract Service Fees	61,894	58,371	54,079
	<b>TOTAL EXPENSES</b>	<b>308,724</b>	<b>294,796</b>	<b>274,942</b>
	Cumulative Effect of Change in Accounting Principle	(2,285)	-	(6)
	Return of Net Position (Equity)	(71)	(2)	(38)
<b>CHANGE IN NET POSITION</b>		<b>59,914</b>	<b>107,427</b>	<b>4,322</b>
	Net Position – Beginning	373,662	266,235	261,913
<b>NET POSITION – ENDING</b>		<b>\$433,576</b>	<b>\$373,662</b>	<b>\$266,235</b>

As mentioned, unrealized investment gains (losses) occur when the market value of investments changes due to market conditions. Due to the volatility of the market and changes in market value, the chart below removes unrealized gains (losses) for a better view of financial results and conditions of the Pool.

REVENUES OVER (UNDER) EXPENSES			
FISCAL YEARS ENDING SEPTEMBER 30, 2025, 2024 & 2023			
(\$ In Thousands)	2025	2024	2023
Revenues Over (Under) Expenses BEFORE Unrealized Gains/(Losses)	\$50,709	\$31,941	\$9,645
Unrealized Investment Gains/(Losses)	11,561	75,488	(5,279)
Revenues Over (Under) Expenses AFTER Unrealized Gains/(Losses)	\$62,270	\$107,429	\$4,366
NET POSITION			
AS OF SEPTEMBER 30, 2025, 2024 & 2023			
(\$ In Thousands)	2025	2024	2023
Net Position BEFORE Cumulative Unrealized Gains/(Losses)	\$438,579	\$390,226	\$358,288
Cumulative Unrealized Investment Gains/(Losses)	(5,003)	(16,564)	(92,053)
Net Position AFTER Cumulative Unrealized Gains/(Losses)	\$433,576	\$373,662	\$266,235

## Key Notes on Financial Results

- Revenues over (under) expenses before unrealized gains (losses) increased to \$50.7 million in 2025 after revenues exceeded expenses by \$31.9 million in 2024. The growth was the result of favorable workers' compensation and property underwriting margins offset with significant auto liability losses.
- As an example of how the volatility of unrealized investment gains (losses) impacts financial results, the Pool began the 2025 fiscal year with cumulative unrealized investment losses of \$16.6 million and ended the year with unrealized investment losses of \$5.0 million. Per accounting standards, the \$11.6 million favorable swing is included in the financial statements. The investment balance without unrealized investment gains (losses) grew by \$80.2 million.

## MEMBER CONTRIBUTIONS

Combined earned contributions rose \$34.6 million in 2025 to \$366.0 million. Contributions were \$331.3 million and \$282.2 million in 2024 and 2023, respectively. Contributions rose due to rate increases from higher claim losses and exposure growth. Contributions by fund were as follows:

EARNED CONTRIBUTIONS		
AS OF SEPTEMBER 30, 2025 & 2024		
(\$ In thousands)	2025	2024
Workers' Compensation	\$100,746	\$104,014
Liability	82,224	76,609
Property	180,774	150,706
Cyber	2,223	0
Total	\$365,967	\$331,329

## Key Member Contributions Notes

- Combined contributions were \$34.6 million or 10.4% higher than last year due to higher claim losses.
- Workers' Compensation contributions were comparable to last year. Rate decreases across several class codes were offset by higher 2025 member payrolls and by \$8.4 million in payroll audit adjustments for the 2023/24 contracts.
- Liability contributions were \$5.6 million or 7.3% higher than last year as auto liability claims losses drove a 7% rate increase to this line of coverage. Additional increases were due to experience modifier adjustments and exposure increases across all liability lines of coverage.
- Property contributions were \$30.0 million or 20.0% higher than last year as claim losses drove an overall 9% increase in rates and a 3% inflationary factor to all scheduled building values and contents. Additional

rate increases were implemented for Housing Authorities along with adjustments to minimum contributions and deductibles for all members.

## INVESTMENT INCOME

Total investment income (including unrealized gains (losses)) was \$48.6 million and \$107.5 million in 2025 and 2024, respectively. Investment income before unrealized gains (losses) was \$37.0 million compared to \$32.0 million last year due to higher interest and dividend income and lower amortization expense. The strong investment results were supported by enhanced portfolio diversification, stable economic growth, lower inflation, and a more favorable monetary policy (lower interest rates). Unrealized investment gains were \$11.6 million and \$75.5 million, at 2025 and 2024, respectively, as the financial markets yielded strong returns for both bonds and stocks.

INVESTMENT INCOME		
12 MONTHS ENDING SEPTEMBER 30, 2025 & 2024		
	2025	2024
Interest Income	\$33,406,899	\$29,992,953
Dividend Income	5,172,178	4,839,166
Amortization Expense	(1,374,696)	(2,179,588)
Realized Gains (Losses)	(159,124)	(607,868)
Investment Income <i>before</i> Unrealized Gains (Losses)	\$37,045,257	\$32,044,663
Unrealized Gains (Losses)	11,561,454	75,488,173
Investment Income after Unrealized Gains (Losses)	\$48,606,711	\$107,532,836

The Lifetime Benefits Investment Portfolio (LTB) is the Pool's long-duration portfolio established in accordance requirements of Chapter 504 of the Texas Labor Code to invest assets for the interest of current and future beneficiaries of workers' compensation death and lifetime income benefits (see notes to financial statements). Since the inception in March 2020, the LTB portfolio has improved the risk-return profile, enhanced returns, and added to the overall portfolio diversification.

The government portfolio incurred unrealized losses of (\$140,280) while the LTB portfolio recorded unrealized gains of \$11.7 million. The LTB portfolio recorded realized losses of (\$195,633) due to trading adjustments for the corporate bond allocation.

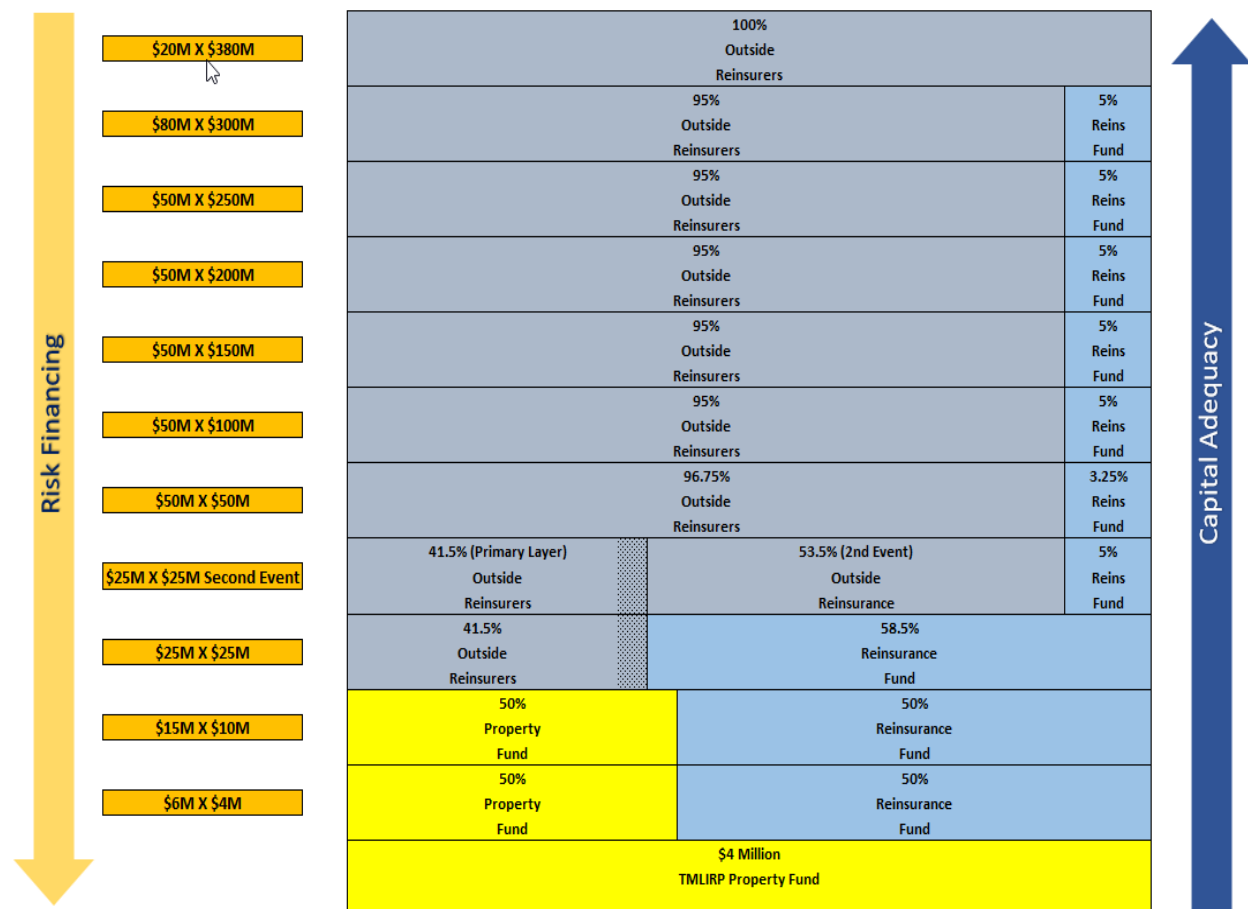

INVESTMENT INCOME BY PORTFOLIO			
12 MONTHS ENDING SEPTEMBER 30, 2025			
	Government Portfolio	Lifetime Benefits Portfolio	Combined
Interest Income	\$28,135,408	\$5,271,491	\$33,406,899
Dividend Income	-	5,172,178	5,172,178
Amortization Expense	(1,330,118)	(44,578)	(1,374,696)
Realized Gains (Losses)	36,509	(195,633)	(159,124)
Investment Income	\$26,841,799	\$10,203,458	\$37,045,257
Unrealized Gains (Losses)	(140,281)	11,701,735	11,561,454
Investment Income (w/unrealized gains/(losses))	\$26,701,518	\$21,905,193	\$48,606,711

## REINSURANCE EXPENSE

Reinsurance expenses paid to external reinsurers were \$44.9 million in 2025, \$37.8 million in 2024, and \$26.5 million in 2023. External reinsurance is primarily used to protect against catastrophic property losses.

### May 1, 2025 to May 1, 2026 Property Reinsurance Placement

The percentages shown apply both to premiums and losses

### Key Reinsurance Notes

- Effective May 1, 2025, the Pool's retention is 58.5% of the \$25 million excess of \$25 million layer and 100% below.
- A second event cover for 53.5% of the \$25 million excess of \$25 million layer was placed effective May 1, 2025.
- The Property Fund retains the first \$4 million of a property occurrence and shares 50-50 with the Reinsurance Fund for the \$21 million excess of \$4 million layer.
- External reinsurance expenses continued to increase significantly in both 2025 and 2024 due to the following:
  - Higher reinsurance rates due to global reinsurance market conditions, additional layers placed, and the Pool's loss experience and additional insured values resulted in a 2025 reinsurance expense total of \$44.9 million and increases of 18.8% and 42% in 2025 and 2024, respectively.
  - The Pool maintained its coverage up to \$400 million with all but 5% of layers between \$50 million and \$380 million assumed by external reinsurance.

- The Pool placed a “Second Event Coverage” for 53.5% of the \$25M X \$25M layer, meaning that if the Pool had more than one event that exhausted \$25M in coverage, a second layer of coverage would provide an additional backstop in the event of multiple catastrophic occurrences.

## NET LOSSES & LOSS ADJUSTMENT EXPENSES

Net losses and loss adjustment expenses increased by \$10.4 million to \$246.8 million. Net losses and loss adjustment expenses were \$236.4 million and \$220.9 million in 2024 and 2023, respectively. Reported losses (paid and case reserves) were \$14.3 million lower than last year due to significant property losses below the Pool's \$10 million retention and auto liability loss activity.

NET LOSSES & LOSS ADJUSTMENT EXPENSES (In \$M)							
THREE-YEAR COMPARISON							
Fund	Reported				Total 2024-25	Total Losses	
	Losses	IBNR	IA	ULAE		2023-24	2022-23
Workers' Compensation	\$57.7	\$5.8	\$0.0	\$0.9	\$64.4	\$54.3	\$55.6
Liability	63.3	16.7	0.2	0	80.2	76.5	66.1
Property	92.4	0.1	2.6	(0.1)	95	97.1	89.9
Cyber	0.3	0	0	0	0.3	0	0
Reinsurance	6.6	0.3	0	0	6.9	8.5	9.3
Total	\$220.3	\$22.9	\$2.8	\$0.8	\$246.8	\$236.4	\$220.9

## Key Net Losses & Loss Adjustment Expenses Notes

### Workers' Compensation Fund

- In 2025, reported losses were \$57.7 million, an increase of \$10.8 million over 2024 reported losses. The rise was driven by increases in both frequency and severity of fatality claims.
- The Pool discounts claim reserves in the Workers' Compensation Fund for all unpaid lifetime benefits to beneficiaries of employees fatally injured on the job (see notes to the financial statements).

### Liability Fund

- In 2025, reported losses were \$63.3 million, a decrease of \$13.6 million compared to 2024.
- In 2025, total losses were \$80.2 million, a \$3.7 million increase over 2024. Incurred but not reported (IBNR) reserve adjustments offset the favorable variance in reported loss, resulting in an overall unfavorable total loss variance.
- Favorable reported loss experience in 2025 was a result of all lines of coverage except Auto Liability. Auto liability reported losses in 2025 were comparable to 2024; however, IBNR reserve adjustments for this coverage resulted in an overall unfavorable variance in total losses. These adjustments were driven by continued increased post-pandemic automobile liability activity and inflationary pressures.

### Property Fund

- In 2025, reported losses were \$92.4 million, a decrease of \$5.8 million compared to 2024.
- For the third consecutive year, all losses were below the \$15 million occurrence level. In prior years, losses approached or exceeded \$100 million only when a major event occurred, such as Hurricane Harvey or Winter Storm Uri.

### **Cyber Fund**

- In 2025, the first year of the Pool's Cyber Fund, total losses were \$0.3 million.
- Gross losses totaled \$1.3 million, with \$1.0 million ceded to external reinsurance, resulting in a net loss of \$0.3 million.

### **Reinsurance Fund**

- In 2025, reported losses were \$6.6 million, a decrease of \$5.9 million compared to 2024.
- Workers' compensation reported losses were \$1.2 million and property losses were \$5.4 million.
- Combined property reported losses in both the Property and Reinsurance Funds for 2025 and 2024 were \$97.6 million and \$100.0 million, respectively. All property program losses in the last two years have been below the \$15 million occurrence level.

### **OPERATING EXPENSES (G&A, CONTRACT SERVICE FEES and PENSION EXPENSES)**

Operating expenses in 2025 were \$61.9 million compared to \$58.4 million in 2024. Personnel-related costs accounted for 68.0% of operating expenses in 2025 and 2024. The expense ratio (operating expenses to net contributions) was 19.3% in 2025 compared to 19.8% in 2024. The increase in operating expenses was due to the implementation of several operating initiatives; however, net contribution increases outpaced operating expenses which resulted in a decrease in the expense ratio.

<b>Operating Expenses</b>	<b>September 30, 2025</b>	<b>September 30, 2024</b>
General & Administrative Expense	\$56,121,243	\$53,394,153
Contract Service Fees	1,083,898	1,620,424
Pension Expense	4,688,372	3,356,432
<b>Operating Expenses</b>	<b>\$61,893,513</b>	<b>\$58,371,009</b>

### **Pension Liability (Asset)**

Accounting standards require the Pool to recognize changes in its Texas Municipal Retirement System (TMRS) pension liability (asset) by incurring expenses or revenues associated with the financial results of the Pool's pension plan. Investment returns of the TMRS pension plan have a significant impact on the Pool's pension liability (asset). Last year, the Pool had a net pension liability at TMRS of (\$5.6) million. Due primarily to unrealized investment gains in the TMRS pension plan (in 2024), the Pool's pension liability lessened to (\$1.5) million. The \$4.0 million favorable balance change is spread over five years to smooth out the effect of the annual change. To the right is the Pension Liability (Asset) change in the last five years.

## CONDENSED STATEMENTS OF NET POSITION

AS OF SEPTEMBER 30, 2025, 2024 & 2023

(In Thousands)	2025	2024	2023
<b>ASSETS AND DEFERRED OUTFLOWS</b>			
Cash, investments, and accrued interest	\$945,856	\$854,129	\$717,779

<b>TOTAL NET POSITION</b>	<b>\$433,576</b>	<b>\$373,662</b>	<b>\$266,235</b>

## CASH, INVESTMENTS, AND ACCRUED INTEREST

Cash, investments, and accrued interest totaled \$945.9 million compared to the book value (what the Pool paid for the investments) of \$950.9 million, resulting in cumulative unrealized losses of (\$5.0) million as of September 30, 2025, increasing from \$854.1 million (including (\$16.6) million in unrealized losses) as of September 30, 2024. Cash and investments account for 96.0% of total assets and deferred items for 2025 and 94.9% for 2024.

Combined Asset Allocation	Fair Value & Accrued Interest	Allocation %
Mortgages	\$453,266,319	51%
Municipal Bonds	\$117,828,388	13%
Money Market & Accrued Interest	\$14,568,201	2%
Stock Mutual Funds	\$92,384,835	10%

International Stock Mutual Funds	\$24,493,892	3%
Investment Grade Corp. Bonds	\$128,962,885	15%
US Treasury	\$8,384,053	1%
<b>Total</b>	<b>\$882,785,386</b>	<b>100%</b>

## Key Investment Notes

- Diversification and asset-liability matching are key factors contributing to the strength and stabilization of the Pool's investment portfolio. The Pool's investment portfolio is comprised of (1) reserves for claim obligations and (2) net position (members' equity).

- The Pool's investment benchmarks are designed to match liability (loss reserve) payouts with maturing or investment cash flows to immunize the portfolio from interest rate risk (selling investments to meet obligations under unfavorable market conditions).
- The investment of Net Position (Members' Equity) is also a consideration of Pool's Investment Policy designed to provide support and financial stability while enhancing the value of those funds.
- The market value of the Lifetime Benefits Investment (LTB) portfolio was \$291.8 million as of September 30, 2025, and accounted for 33% of the total portfolio.
- The return on investment, which excluded unrealized investment gains (losses), was 3.6% compared to 3.2% last year, and the total rate of return, which included unrealized investment gains (losses), was 5.0% compared to 13.7% last year.

#### Comparative Performance

Total Rate of Return	3 Months	1 Year	2 Year	3 Year	4 Year	5 Year
Consolidated Portfolio	2.7%	5.0%	9.3%	7.0%	1.8%	1.9%
Government Benchmark	2.2%	3.6%	7.5%	5.2%	0.3%	0.2%
Return on Investment	3 Months	1 Year	2 Year	3 Year	4 Year	5 Year
Consolidated Portfolio	0.9%	3.6%	3.4%	3.3%	3.2%	3.0%

#### NET PENSION ASSET (LIABILITY) and DEFERRED OUTFLOWS (INFLOWS) OF PENSION RESOURCES

The net pension liability was \$1.5 million as of September 30, 2025, compared to a net pension liability of \$5.6 million as of September 30, 2024. Deferred outflows (inflows) of pension resources were \$3.3 million for 2025 compared to \$8.4 million for 2024. The loss in the net pension asset was primarily attributable to unfavorable asset performance at TMRS compared to the expected return of plan assets. The pension is essentially fully funded with net position as a percentage of the pension liability at 99.3% and 97.3% at 2024 and 2023, respectively (see notes to financial statements). The 2025 valuation will not be available until 2026.

#### CLAIM RESERVES (ESTIMATED ULTIMATE UNPAID LOSSES and LOSS ADJUSTMENT EXPENSES)

Reserves for estimated ultimate net unpaid losses and loss adjustment expenses (loss reserves) were \$488.4 million as of September 30, 2025, compared to \$465.1 million at the end of the 2024 fiscal year (accounting for 88.6%, and 88.3% of total liabilities, respectively).

CLAIM RESERVES		
(in Millions)	2025	2024
Reserves for Reported Claims	\$420.2	\$416.6
Reserves for Incurred but Not Reported Claims	106.4	83.5
Reserves for Unallocated Loss Adjustment Expenses	21.5	20.7
Estimated Future Investment Income (Discount for LTB Reserves)	(59.7)	(55.7)
Total Reserves	\$488.4	\$465.1

- Reserves for reported claims: estimated reserves set up in the claims system to settle claims.
- Reserves for incurred but not reported claims (IBNR): estimated reserves for unreported/under-reserved claims.
- Reserves for unallocated loss adjustment expenses (ULAE): estimated reserves for expenses that cannot be associated with specific claims.

- Estimated future investment income: discount for workers' compensation lifetime and death indemnity benefit claims.

As of September 30, the reserves for reported lifetime benefit claims (net of reinsurance) and estimated present value of these reserves were as follows:

Lifetime Income Benefits	2025	2024
Reserves	\$ 148,522,073	\$ 140,326,973
Discount	(59,731,036)	(55,739,284)
<b>Present Value</b>	<b>\$ 88,791,037</b>	<b>\$ 84,587,690</b>

## NET POSITION

Net position before cumulative unrealized investments gains (losses) increased to \$438.6 million from \$390.2 million at the end of last year. The growth in net position was in line with the Pool's planned effort to strengthen the financial condition of the Property Program. Significant weather-related losses, including large Winter Storm Uri claims and a higher plateau of annual storm losses across Texas, depleted the net position of the property program. Higher weather-related member contributions and favorable loss experience (no major hurricanes) in 2025 contributed to the growth and stability in net position. The increase in net position after cumulative unrealized investment gains (losses) to \$433.6 million from \$373.7 million last year reflects the rebounding of market values of bonds and stocks due to higher yields, easing interest rates, and lower inflation.

NET POSITION			
AS OF SEPTEMBER 30, 2025, 2024 & 2023			
(\$ In Thousands)	2025	2024	2023
Net Position BEFORE Cumulative Unrealized Gains/(Losses)	\$438,579	\$390,226	\$358,288
Cumulative Unrealized Investment Gains/(Losses)	(5,003)	(16,564)	(92,053)
Net Position AFTER Cumulative Unrealized Gains/(Losses)	\$433,576	\$373,662	\$266,235

Net position, or Members' equity, is the foundation of the Pool's financial strength. It supports stable long-term rates for Members and protects the Pool from unexpected losses. To maintain financial stability and protect against enterprise risks, the Pool has adopted a target equity policy which includes minimum and maximum levels.

As of September 30, 2025, both net positions of \$438.6 million (without unrealized investment gains/(losses)) and \$433.6 million (with unrealized investment gains/(losses)) were within the target equity range.

## CONDENSED STATEMENTS OF CASH FLOWS

Net cash provided by (used for) operating activities was \$85.4 million and \$71.2 million in 2025 and 2024, respectively. Receipts from Member contributions are the Pool's largest cash inflow, and payments for claims are the largest cash outflow. Receipts from Member contributions were \$364.8 million and \$331.4 million in 2025 and 2024, respectively. Payments for claims were \$251.2 million and \$227.2 million in 2025 and 2024, respectively.

### SUMMARY COMPARATIVE STATEMENTS OF CASH FLOWS

AS OF SEPTEMBER 30, 2025, 2024 & 2023

(In Thousands)	2025	2024	2023
Net cash provided by (used for) operating activities*	\$85,354	\$71,194	\$62,425
Net cash provided by (used for) capital and related activities	(3,819)	(7,646)	(13,049)
Net cash provided by (used for) investing activities	(44,818)	(38,552)	(49,111)
<b>Net increase in cash and cash equivalents</b>	<b>\$36,717</b>	<b>\$24,996</b>	<b>\$265</b>
Cash and cash equivalents (beginning of year)	37,175	12,179	11,913
<b>Cash and cash equivalents (end of year)</b>	<b>\$73,892</b>	<b>\$37,175</b>	<b>\$12,178</b>

\* Includes investment interest received of \$38,676,748, \$34,442,066, and \$28,240,766 for the years ended September 30, 2025, 2024 and 2023, respectively.

## OPERATING RESULTS BY FUND

The Pool's operations consist of six funds: Workers' Compensation, Liability, Property, Cyber, Reinsurance, and Stability. The table below includes operating ratios used by the industry to analyze underwriting results and are calculated as follows:

- Loss Ratio: the ratio of claims and claims expense to net contributions (gross contributions minus reinsurance expense).
- Expense Ratio: the ratio of operating expenses to net contributions.
- Combined Ratio: the sum of the loss ratio and expense ratio (expense ratio not included in table).
- Operating Ratio: includes the impact of investment income on the combined ratio.

*How to interpret the ratios:*

*A combined ratio of less than 100% means that the Pool earned more net contributions than losses plus expenses. Conversely, a combined ratio of more than 100% means the Pool had more losses plus expenses than net contributions.*

*When including investment income, an operating ratio less than 100% means that net contributions plus investment income are more than losses plus expenses. Conversely, an operating ratio of more than 100% means the Pool had more losses plus expenses than net contributions plus investment income.*

*NOTE: The following analysis excludes unrealized investment gains (losses) from "Revenues over Expenses" and ratio calculations.*

## WORKERS' COMPENSATION FUND

The financial condition of the Workers' Compensation Fund continued strengthening with a net position of \$165.0 million at the end of the 2024-25 fiscal year. Strong payroll growth maintained favorable loss ratios from 51% last year to 65% in 2025. The continued favorable loss ratio helped the Net Position increase from \$134.3 million last year to \$165.0 million. The combined ratio, which includes operating expenses, was 95%. The operating ratio of 76% that includes investment income (without unrealized gains or losses) reflects how net position has strengthened without considering unrealized gains in 2025.

WORKERS' COMPENSATION FUND			
(\$ in Thousands)	2025	2024	2023
Net Contributions	\$97,905	\$101,158	\$91,540
Losses	\$63,462	\$51,828	\$53,026
Revenues over Expenses (w/o Unrealized)	\$24,417	\$37,262	\$28,028
Total Assets and Deferred Charges	\$402,090	\$361,728	\$283,151
Net Position	\$165,033	\$134,303	\$58,162
Loss Ratio	65%	51%	58%
Current Accident Year Loss Ratio	60%	50%	53%
Expense Ratio	30%	28%	28%
Combined Ratio	95%	80%	86%
Operating Ratio	76%	64%	70%

## LIABILITY FUND

The net position of the Liability Fund decreased to \$22.0 million. The loss ratio has continued to be near or over 100% for the past three years due to higher losses for various lines of coverage. However, a portion of these losses was driven by a significant increase in loss reserves compared to paid losses over this period. A hardening defense strategy for claim management has led to increased claim duration and high confidence level in total reserves. Operating ratios above 100% indicate expenses have exceeded revenues for the past three years. The net position in 2025 was also impacted by the \$10 million seed transfer for the inception of the Cyber Fund in October 2024.

LIABILITY FUND			
(\$ in Thousands)	2025	2024	2023
Net Contributions	\$80,970	\$73,709	\$62,757
Losses	\$80,263	\$74,773	\$65,218
Revenues over Expenses (w/o Unrealized)	(\$7,005)	(\$8,098)	(\$8,867)
Total Assets and Deferred Charges	\$222,972	\$224,244	\$201,772
Net Position	\$22,033	\$38,887	\$34,929
Loss Ratio	99%	101%	104%
Current Accident Year Loss Ratio	99%	88%	92%
Expense Ratio	17%	18%	18%
Combined Ratio	116%	119%	122%
Operating Ratio	109%	111%	114%

## PROPERTY FUND

The Property Fund is heavily supported by the Reinsurance Fund and commercial reinsurers. The Property Fund retains the first \$4 million of a loss, then shares 50% of the next \$21 million with the Reinsurance Fund. A loss above \$25 million is absorbed by the Reinsurance Fund and external reinsurers. Loss ratios over the last three years are reflective of loss experience below reinsurance retention levels noted above. Losses in excess of \$95 million all below a \$15 million occurrence level were incurred in both 2025 and 2024.

Increased contribution levels and responsive allocations at respective retention levels are resulting in improved loss ratios for losses retained in the Property Fund. Loss ratios in the Property Fund were 80% and 99% in 2025 and 2024, respectively.

PROPERTY FUND			
(\$ in Thousands)	2025	2024	2023
Net Contributions	\$118,976	\$97,534	\$85,109
Losses	\$95,121	\$96,928	\$89,640
Revenues over/(under) Expenses (w/o Unrealized)	\$16,568	(\$6,464)	(\$10,793)
Total Assets and Deferred Charges	\$141,985	\$123,566	\$116,401
Net Position	\$74,421	\$58,653	\$58,410
Loss Ratio	80%	99%	105%
Current Accident Year Loss Ratio	84%	97%	111%
Expense Ratio	10%	12%	12%
Combined Ratio	90%	111%	117%
Operating Ratio	86%	107%	113%

## REINSURANCE FUND

The Reinsurance Fund is playing a major role in the Pool's reinsurance program. The overall financial strength of the Pool has allowed it to "self-insure" through the Reinsurance Fund, and the strong net position of \$138.5 million is a success story. The build-up in net position since inception of the program is the result of the Pool, rather than external reinsurers, benefiting from underwriting gains. The favorable loss ratios over the last three years reflect the risk management benefits of retaining some risk in the Reinsurance Fund compared to external reinsurers realizing these favorable underwriting margins.

REINSURANCE FUND			
(\$ in Thousands)	2025	2024	2023
Net Contributions	\$22,345	\$21,135	\$16,235
Losses	\$6,865	\$8,497	\$9,279
Revenues over Expenses (w/o Unrealized)	\$17,490	\$13,856	\$8,196
Total Assets and Deferred Charges	\$155,486	\$139,658	\$115,161
Net Position	\$138,528	\$118,973	\$94,045
Loss Ratio	31%	40%	57%
Current Accident Year Loss Ratio	23%	46%	67%
Expense Ratio	18%	18%	20%
Combined Ratio	49%	58%	77%
Operating Ratio	22%	35%	49%

## CYBER FUND

The Cyber Fund was established in October 2024. This fund provides coverage for cyber and data breach liability, which were included as part of the Liability Fund prior to October 1, 2024.

CYBER FUND			
(\$ in Thousands)	2025	2024	2023
Net Contributions	\$883	\$-	\$-
Losses	\$320	\$-	\$-
Revenues over Expenses (w/o Unrealized)	\$765	\$-	\$-
Total Assets and Deferred Charges	\$11,510	\$-	\$-
Net Position	\$10,367	\$-	\$-
Loss Ratio	36%	-	-
Current Accident Year Loss Ratio	36%	-	-
Expense Ratio	11%	-	-
Combined Ratio	47%	-	-
Operating Ratio	13%	-	-

## STABILITY FUND

Net position of the Stability Fund was \$23.2 million in 2025 compared to \$22.8 million in 2024. Due primarily to positive returns on the Pool's pension plan assets at TMRS, the Pool's net pension liability decreased to \$1.5 million in 2025 compared to \$5.6 million in 2024.

STABILITY FUND			
(\$ in Thousands)	2025	2024	2023
Total Assets and Deferred Charges	\$51,038	\$51,162	\$53,900
Pension Asset (Liability)	(\$1,533)	(\$5,561)	(\$15,629)
Net Position	\$23,193	\$22,845	\$20,688

## BUDGET COMPARISON

In the preceding sections, the Pool addressed the operating results of the 2024-25 fiscal year. Below is a chart comparing the budget to actual expenses. The budget and actual results exclude the effects of the change in unrealized gains and losses. Higher claim losses and reinsurance expenses offset higher revenues and lower operating expenses.

BUDGET COMPARISON			
	Budget 2024-25	Actual 2024-25	Difference
Earned Contributions	\$346,864,500	\$365,966,859	\$19,102,359
Service Fee and Other Income	1,194,000	1,308,202	114,202
Investment Income*	32,000,000	37,045,257	5,045,257
Total Revenues	\$380,058,500	\$404,320,318	\$24,261,818
Total Losses and Loss Adjustment Expenses	238,135,000	246,830,356	(8,695,356)
Reinsurance Expenses	42,369,450	44,887,621	(2,518,171)
Pension Expenses	-	4,688,372	(4,688,372)
Operating Expenses	61,992,950	57,205,141	4,787,809
Total Expenses	\$342,497,400	\$353,611,490	(\$11,114,090)
Revenues over (under) Expenses	<b>\$37,561,100</b>	<b>\$50,708,828</b>	<b>\$13,147,728</b>

\* Excludes the effects of the change in net unrealized gains of \$11,561,454.

## SIGNIFICANT INITIATIVES AND PROGRAMS DURING 2024-25

Over the past year, we implemented several additional initiatives that enhance Member experience. The following are just a few examples:

- We continued to refine and expand our cyber coverage and security resources, including enhanced grant support and access to advanced analytics services, enabling members to better prepare for and respond to evolving cyber risks.
- We intensified loss-prevention outreach and training efforts, particularly in law enforcement excellence and roadway safety.
- We continued modernizing member service tools through technology roadmap progress and process improvements.
- We created a comprehensive compensation and classification study for Pool employees.
- We developed artificial intelligence guidelines.

These investments demonstrate our commitment to operational excellence across all areas of service.

## REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Pool's finances. Questions concerning the information provided in this report, or requests for additional financial information, should be addressed to the Chief Financial Officer, Texas Municipal League Intergovernmental Risk Pool, P.O. Box 149194, Austin, Texas 78714-9194.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**NOTE 1 – DESCRIPTION OF OPERATIONS**

The Texas Municipal League Intergovernmental Risk Pool (the Pool) provides workers' compensation, liability, property and cyber coverages to Texas municipalities and other eligible local governments. At September 30, 2025 and 2024, the Pool had 2,813 and 2,803 members, respectively, participating in its programs. The Pool consists of enterprise funds including the Workers' Compensation, Liability, Property, Cyber, Reinsurance, and Stability Funds. For external reporting purposes, the Pool classifies all Funds as "major funds" as prescribed by the Governmental Accounting Standards Board (GASB).

The Texas Municipal League Workers' Compensation Joint Insurance Fund (Workers' Compensation) was created in January 1974. This Fund provides coverage that conforms to the workers' compensation laws of Texas. This Fund also provides excess workers' compensation coverage over per occurrence retentions and corridor deductibles.

In 1981, the Texas Municipal League Joint-Self Insurance Fund (Liability and Property) was created. The coverages provided by the Liability Fund include general liability, errors and omissions liability, law enforcement liability, automobile liability, hangarkeepers' liability, chartered aircraft and airport liability, supplemental sewage backup liability, and supplemental income gap liability. The Property Fund provides real and personal property, automobile physical damage, mobile equipment, boiler and machinery, crime and animal mortality coverage.

The Stability and Reinsurance Funds were created in 1990. The purpose of these Funds is to provide additional self-funded layers of risk and stability for Pool operations. The Stability Fund was created to provide protection for all of the Pool's claims incurring funds to offset the inability of any such Fund to meet its cash requirements, provide a reserve for Unallocated Loss Adjustment Expenses (ULAE), be the mechanism to fund the non-operational Texas Municipal Retirement System unfunded liability, and provide a smoothing method for future increases in personnel costs via the Employment Cost Reserve (ECR). The Reinsurance Fund provides reinsurance, like that provided by external reinsurers, to the claims incurring Funds.

The Cyber Fund was established in October 2024 with a Board-approved equity transfer of \$10 million from the Liability Fund. This fund provides coverage for cyber and data breach liability, which were included as part of the Liability Fund prior to October 1, 2024.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Financial Statements**

The basic financial statements consist of individual account balances for the Workers' Compensation, Liability, Property, Cyber, Reinsurance, and Stability Funds. The effects of interfund transactions were eliminated on the combined financial statements. The financial statements of the Pool have been prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governmental entities.

**Contribution Recognition**

Most member entities pay annual contributions to obtain workers' compensation, liability, property, and cyber coverage for each fiscal year ending September 30. These contributions are earned on a pro-rata basis over the period of coverage. Workers' Compensation contributions are initially rated on estimated payrolls and subsequently are audited and adjusted in the following year. Audit adjustments billed and earned in fiscal years 2025 and 2024 were \$8,409,966 and \$6,925,306, respectively. Contribution rates are approved by the Board. Initial rates were either determined based on rates established by the Insurance Services Office or the Texas Department of Insurance. As the Pool has developed, adjustments were made to the initial rates to reflect current operations. Contribution rates

# Texas Municipal League Intergovernmental Risk Pool

## Notes to the Financial Statements

### For the Fiscal Year Ended September 30, 2025

are adjusted using experience modifiers based on individual members' loss experience. Cyber liability and breach response services were added to the Pool's available coverage.

#### **Cash, Cash Equivalents and Investments**

Cash, cash equivalents and investments are combined for banking and investment purposes, but individual fund balances are determined by fund operations and financial results. The Pool presents all investments on the balance sheet at fair value and recognizes changes in the fair value of investments as a component of investment income on the Statements of Operations and Changes in Net Position.

The intent of the Pool is to buy and hold investments until they mature. However, the Pool may sell securities as a prudent measure based on current market conditions. Long-term investments consist of United States Government and agency securities, municipal and corporate bonds, and corporate bond and equity mutual funds. Short-term investments include securities with maturity dates within one year. Cash equivalents include demand, money market, and investment pool funds.

Investing is a primary ongoing operation of the Pool, and all investment income is used to fund Pool operations. Investment income is also a determining factor used in setting contribution rates. It is the Pool's policy to consider investment income (excluding change in fair value) as an important component of total operating income.

The Pool complies with the Texas Public Funds Investment Act (Chapter 2256, Texas Government Code). In June 2019, Senate Bill 2551 expanded the number and types of cancer presumed under the Texas workers' compensation statutes to be related to the hazards of firefighting. To help offset the additional costs afforded by the expansion of benefits, the law expanded the investment authority for governmental self-insurance risk pools (as well as governmental self-insureds). Chapter 504 of the Texas Labor Code grants the Pool the sole discretion, under the "Prudent Person" rule, to accumulate and invest assets for the interest of current and future beneficiaries of workers' compensation death and lifetime income benefits. The Public Funds Investment Act does not apply to the investment of these assets. In January 2020, the Board revised the investment policy and adopted provisions related to the authorized investments, investment benchmark, investment structure, and funding for the Lifetime Benefits Investment Portfolio (LTB Portfolio). The LTB Portfolio is comprised of claim reserves and members' equity of the Workers' Compensation and Reinsurance Funds related to workers' compensation death and lifetime income benefits. All other funds are invested in accordance with the Texas Public Funds Investment Act.

#### **Fair Value Measurements**

Estimates of fair value for financial assets are based on the framework established in the fair value measurements and disclosures accounting guidance. The framework is based on the inputs used in valuation and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the fair value accounting guidance includes a hierarchy based on whether significant valuation inputs are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect significant market assumptions.

Fair values are based on quoted market prices when available (Level 1). The Pool receives the quoted market prices from a third party nationally recognized in pricing service. When market prices are not available, the Pool utilizes a pricing service to determine an estimate of fair value, which is mainly used for the Pool's debt securities' fair value. The fair value is generally estimated using current market inputs for similar financial instruments with comparable terms and credit quality, commonly referred to as matrix pricing (Level 2). In instances where there is little or no market activity for the same or similar instruments, the Pool estimates fair value using methods, models and

# Texas Municipal League Intergovernmental Risk Pool

## Notes to the Financial Statements

### For the Fiscal Year Ended September 30, 2025

assumptions that management believes are relevant to the particular asset. This may include discounted cash flow analysis or other income-based approaches (Level 3). These valuation techniques involve some level of management estimation and judgment. The Pool recognizes transfers between levels at the end of the reporting period.

#### Claim Reserves

After considering the consulting actuary's analysis, claim reserves represent management's best estimate of ultimate net unpaid losses. Estimated net ultimate losses include claims that have been reported but not yet paid, estimates of additional development of initial claim estimates, and claims that have been incurred but not yet reported (IBNR) to the Pool, net of reinsurance.

The actuary's analysis includes allocated loss adjustment expenses that can be associated directly with specific claims, such as legal fees. The Pool also accrues a reserve estimate for Unallocated Loss Adjustment Expenses (ULAE) in the Stability Fund, which represents expected future costs that cannot be associated with specific claims but will be related to claims in the process of settlement, such as salaries of the Pool's claims department, and other costs of administering and closing claims.

The Pool has accumulated a base of reported loss data which is used to project ultimate losses. Estimates of incurred losses for all accident years involve estimation of future events and costs that may significantly differ from costs ultimately realized due to several factors. Although considerable variability is inherent in estimates of trends in loss severity and frequency, management believes the reserves for losses and loss adjustment expenses are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known. As adjustments to these estimates become necessary, such adjustments are reflected in current operations.

Reinsurance premiums, losses, and loss adjustment expenses are accounted for consistent with the original coverage documents issued and the terms of the reinsurance contracts. Certain reinsurance contracts include provisions for reinstatement premiums that are estimated and included in current operations when incurred.

The Pool discounts claim reserves in the Workers' Compensation Fund for all unpaid lifetime benefits to beneficiaries of employees fatally injured on the job. As such, the unpaid benefits have a determinable duration and amount.

The discount rate for qualifying lifetime income benefit and death benefit reserves for the surviving spouse of a non-first responder is 4.4%, and 3.5% for death benefit reserves established for the surviving spouse of a first responder. On September 30, the reserves for reported lifetime benefit claims (net of reinsurance) and estimated present value of these reserves were as follows:

<b>Lifetime Income Benefits</b>	<b>2025</b>	<b>2024</b>
Reserves	\$ 148,522,073	\$ 140,326,973
Discount	(59,731,036)	(55,739,284)
<b>Present Value</b>	<b>\$ 88,791,037</b>	<b>\$ 84,587,690</b>

#### Net Position

Net Position supports the Pool's operations, provides protection against enterprise risks (underwriting, reserving, asset, and operational risks), and maintains the financial stability and strength of the Pool.

**Texas Municipal League Intergovernmental Risk Pool**  
**Notes to the Financial Statements**  
**For the Fiscal Year Ended September 30, 2025**

To maintain financial stability and protect the Pool against enterprise risks, the Pool considers periodic capital modeling studies to establish minimum and maximum target net position levels on a combined fund basis. The target net position range on a combined basis begins with the projected capital requirement to fund a 1-in-200-year occurrence and projected funding for 2 times a 1-in-200-year occurrence for the maximum level.

The Pool has established a Net Position Distribution Policy within a framework of the combined net position level described above based on annual financial results. No distribution of net position occurred in 2024-25 or 2023-24.

The combined target net position range was set at \$341 million to \$682 million. The combined net position on September 30, 2025, was \$433.6 million, which is above the target equity minimum on a combined fund basis.

GASB Statement No. 31 requires the Pool to report investments on the Statements of Net Position at fair value. Due to this GASB requirement, Net Position shown on the Statements of Net Position as of September 30, 2025, and 2024 includes unrealized gains and losses on investments as follows:

<b>Funds</b>	<b>Net Position</b>	<b>Unrealized Gains/(Losses)</b>	<b>2025</b>	<b>2024</b>
Workers' Compensation	\$ 153,846,813	\$ 11,186,232	\$ 165,033,045	\$ 134,302,581
Liability	28,775,387	(6,741,955)	22,033,432	38,887,395
Property	79,817,003	(5,395,873)	74,421,130	58,652,778
Cyber	10,756,018	(388,865)	10,367,153	-
Reinsurance	140,110,916	(1,582,626)	138,528,290	118,973,033
Stability	25,273,306	(2,080,031)	23,193,275	22,845,843
<b>Total</b>	<b>\$ 438,579,443</b>	<b>\$ (5,003,118)</b>	<b>\$ 433,576,325</b>	<b>\$ 373,661,630</b>

The Board authorized restricting equity for the purpose of establishing a conservative approach for the Subsequent Injury Fund's (SIF) long-term obligations to the Pool. At September 30, 2025, and 2024, the restricted net position for SIF was \$ 9.2 million and \$7.1 million, respectively.

**Income Taxes**

The Workers' Compensation and the Liability and Property programs obtained rulings from the Internal Revenue Service in February 1980 and July 1989, respectively, which recognize these programs as political subdivisions. Pursuant to these rulings, income is not taxable under Section 115(1) of the Internal Revenue Code. The income earned by the Cyber and Data Breach Response program was determined to be non-taxable based upon the basis established for the aforementioned Funds. Accordingly, the accompanying financial statements do not include income tax expense.

**Capital Assets**

Capital assets include land, building, furniture, equipment and right-to-use (ROU) leases and subscription-based assets that are used in operations.

**Land, Building, Furniture and Equipment**

Expenditures for individual property items costing \$100,000 or more are capitalized and carried at depreciated cost (see Note 5).

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

Depreciation expense is computed on a straight-line basis over the estimated useful life of the assets.

<b>Capital Assets</b>	<b>Estimated Useful Life</b>
Vehicles & Computers	3 Years
Furniture, Fixtures & Equipment	5 Years
Software	7 Years
Building & Building Improvements	40 Years
Land	Non-Depreciable

**Leases**

GASB Statement 87, *Leases* defines a lease as a contract that conveys control of the right to use another entity's non-financial asset as specified in the contract for a period of time in an exchange or exchange-like transaction.

The Pool is a lessor of office space in its main headquarters. The Pool is a lessee for non-cancellable leases of office space, copiers, and other equipment.

**Pool as Lessor**

The Pool recognizes a lease receivable and a deferred inflows of resources at the beginning of the lease term. Initially, the lease receivable and deferred inflows are measured as the present value of lease payments expected to be received during the lease term. Subsequently, the lease receivable is reduced, and interest revenue is recognized when lease payments are received. The deferred inflows of resources is amortized on a straight-line basis over the shorter of the lease term or its useful life and lease revenue is recognized.

**Pool as Lessee**

The Pool recognizes a lease liability and a right-to-use lease asset at the beginning of the lease term. Initially, the lease liability and right-to-use lease asset are measured at the present value of payments expected to be made during the lease term. The lease term includes any renewal options that are more than likely to be exercised. Subsequently, the right-to-use asset is amortized over the shorter of the lease term or its useful life and amortization expense is recognized. Lease payments are amortized between principal and interest. When lease payments are made, the lease liability is reduced, and interest expense is recognized.

Key estimates and judgments related to leases include how the Pool determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

1. The Pool uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Pool generally uses its estimated incremental borrowing rate as the discount rate for leases which has been determined using the Pool's long-term return on investments of 2.5%.
2. The lease term includes the non-cancellable period of the lease.
3. Lease payments included in the measurement of the lease liability are composed of fixed payments, variable payments fixed in substance or that depend on an index or a rate, purchase option price that the Pool is reasonably certain to exercise, lease incentives receivable from the lessor, and any other payments that are reasonably certain of being required based on an assessment of all relevant factors.

The Pool monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

For leases with a maximum possible term of 12 months or less at commencement, the Pool recognizes an expense based on the provisions of the lease contract.

**Subscription-Based Information Technology Arrangements (SBITAs)**

GASB Statement 96, *Subscription-Based Information Technology Arrangements* (SBITA) defines a SBITA as a contract that conveys control of the right to use another vendor's software, alone or in combination with hardware.

The Pool is a subscriber of certain SBITA that it uses in the normal course of business.

At subscription commencement, the Pool initially measures the subscription-based IT liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription-based IT liability is reduced by the principal portion of subscription payments made. The subscription-based IT asset is initially measured as the initial amount of the subscription-based IT liability, less subscription payments made at or before the subscription commencement date, less any vendor incentives received at or before the subscription commencement date, plus the capitalizable implementation costs. The subscription-based IT arrangement asset is amortized on a straight-line basis over the shorter of the subscription term or the useful life of the underlying hardware or software.

Key estimates and judgments related to SBITAs include how the Pool determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, (3) subscription payments, and (4) exclusion of contracts that are immaterial.

1. The Pool uses the interest rate charged by the IT provider as the discount rate. When the interest rate charged by the provider is not provided, the Pool generally uses its estimated incremental borrowing rate as the discount rate for SBITAs which has been determined using the Pool's long-term return on investments of 2.5%.
2. The subscription term includes the noncancellable period of the subscription, not to exceed seven years if not stated in the contract.
3. SBITAs payments included in the measurement of the SBITAs liability are composed of fixed payments, variable payments fixed in substance or that depend on an index or a rate, purchase option price that the Pool is reasonably certain to exercise, lease incentives receivable from the lessor, and any other payments that are reasonably certain of being required based on an assessment of all relevant factors.
4. The Pool determined that any contract with annual payment totals below \$100,000 was immaterial and excluded them from treatment under GASB 96.

The Pool monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the SBITA asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

For subscription-based IT arrangements with a maximum possible term of 12 months or less at commencement, the Pool recognizes an expense/expenditure based on the provisions of the subscription-based IT arrangement.

Details of the lessor arrangements and amounts can be found in Note 6 – Other Assets. Details of the lease and SBITA arrangements and amounts can be found in Note 5 – Net Capital Assets.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**Compensated Absences**

In 2024 - 25, the Pool implemented GASB Statement No. 101, *Compensated Absences*. The statement requires that a liability be recognized for vacation leave earned by employees attributable to past service and sick leave earned by employees attributable to past service only to the extent it is probable that such leave will be used for time off or otherwise paid or settled.

**Sick leave policy**

Employees accrue eight hours of sick leave monthly. Unused hours roll over to the next fund year. The payout rate for sick leave used for time off is the current pay rate in effect at the time of usage.

Unused sick leave hours are forfeited upon termination of employment unless eligible for conversion to an individual retirement health savings account (RHS).

The policy includes an RHS feature that allows eligible employees to convert excess sick leave hours both annually and at retirement. The funds in the accounts revert to the Pool if the employee leaves employment prior to retirement eligibility or if the employee and surviving spouse die after retirement.

**RHS - Annual conversion**

Each year, employees with over 720 hours of sick leave will have a portion cashed out at \$30 per hour. The funds will be transferred to their retirement health savings account, accessible upon retirement.

**RHS - Retirement conversion**

If eligible, the Pool will cash out up to 400 hours of unused sick leave exceeding 500 hours at \$30 per hour and transfer the funds to employees' retirement health savings accounts upon separation.

The sick wages liability is calculated based on the sick leave balances as of 9/30 and the probability that the leave will be used, forfeited, or paid out. The probability assumptions are derived from the U.S. Bureau of Labor Statistics' data on general trends in sick leave usage, forfeiture, and payout across different employee tenure groups.

<b><u>Assumptions</u></b>	<b><u>Paid Out at Termination</u></b>	<b><u>Used Prior to Termination</u></b>	<b><u>Forfeited</u></b>
Five Years and Under	0%	80%	20%
Five to 10 Years	50%	30%	20%
Above 10 Years	70%	30%	0%

**Vacation leave policy**

Employees accrue vacation hours at a rate of 7 1/3 – 14 hours per month, depending upon their length of service. Unused vacation leave can be carried over up to a maximum of 60 days. Upon termination of service, employees receive a lump sum for accrued but unused vacation days based on their length of service not to exceed 45 days. However, if an employee declares their retirement date at least 180 days in advance, they may opt to use up to 60 days of vacation leave as retirement leave starting the day before their declared retirement, instead of receiving a lump sum payment. The payout rate is the current pay rate in effect at the time of termination.

Annually employees can buy back a maximum of 48 unused vacation hours, provided they have accumulated over the required minimum balance of 80 hours.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

The table below reflects the net effect of the restatement of Net Position to reflect the cumulative effect of adoption of GASB 101:

	<u>Combined Funds</u>
Net Position at 10/1/2024, as previously reported	\$373,661,630
Adjustment for Restatement	<u>(2,285,087)</u>
<b>Net Position at 10/1/2024, after restatement</b>	<b><u>\$371,376,543</u></b>

Prior-period amounts have not been restated as the Pool determined that retroactive application of the new standard to all prior periods as of October 1, 2023 is not practicable for the following reasons:

- Required historical data for prior periods as of 10/1/23 is not available, incomplete or unreliable. The data is not retained in a form that allows reconstruction in a reliable manner.
- Any attempt to restate balances as of 10/1/23 would require reconstructing historical inputs that cannot be objectively tied to contemporaneous documentation.
- Estimates as of 10/1/23 would require manual reconstruction that would be excessively burdensome and still unreliable.
- The estimate as of 10/1/24 supports a reliable cumulative-effect adjustment. The detail provided for this estimate is based on the most current and accurate data.

**Other Liabilities**

Other liabilities include amounts payable to employees and various vendors for goods or services, lease contracts, subscription-based IT arrangements and compensated absences. The balances on September 30 are as follows:

<b>Other Liabilities</b>	<b>2025</b>	<b>2024</b>
Excess Deposit Payables	\$ 6,341,769	\$ 5,666,769
Other Payables	2,949,729	2,753,499
Vacation Wages Payables	3,669,610	3,522,963
Sick Wages Payables	2,343,772	-
Lease Liabilities	111,705	108,950
SBITAs Liabilities	1,581,272	1,359,986
<b>Total</b>	<b>\$ 16,997,857</b>	<b>\$ 13,412,167</b>

The changes in the compensated absences liabilities for the year ended September 2025 are as follows:

	<b>Balance</b>	<b>Net</b>	<b>Balance</b>	<b>Due Within</b>	<b>Due Within</b>
	<b>September 30</b>	<b>Increase</b>	<b>September 30</b>	<b>Due Within</b>	<b>More Than</b>
<b>Compensated Absences</b>	<b>2024</b>	<b>(Decrease)</b>	<b>2025</b>	<b>One Year</b>	<b>One Year</b>
Vacation Wages Payables	\$ 3,522,963	\$ 146,647	\$ 3,669,610	\$ 1,640,051	\$ 2,029,559
Sick Wages Payables	-	-	2,343,772	463,789	1,879,983
<b>Total</b>	<b>\$ 3,522,963</b>	<b>\$ 146,647</b>	<b>\$ 6,013,382</b>	<b>\$ 2,103,840</b>	<b>\$ 3,909,542</b>

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**Leases and Subscription-Based Information Technology Arrangements (SBITAs) Liabilities**

Leases and SBITAs liabilities consist of long-term portion of lease contract and subscription-based IT arrangements that are longer than a 12-month term. The balances on September 30 are as follows:

<b>Lease &amp; SBITAs Liabilities</b>	<b>2025</b>	<b>2024</b>
Lease Liabilities	\$ 241,207	\$ 352,913
SBITAs Liabilities	5,897,457	6,313,927
<b>Total</b>	<b>\$ 6,138,664</b>	<b>\$ 6,666,840</b>

**Unearned Contributions**

Unearned contributions account for in-force contributions, billed and unbilled, that have not been earned. The balances on September 30 are as follows:

<b>Unearned Contributions</b>	<b>2025</b>	<b>2024</b>
Workers' Compensation	\$ 1,850,448	\$ 2,574,002
Liability	2,075,544	1,927,733
Property	7,712,250	6,487,190
Cyber	1,115	-
<b>Total</b>	<b>\$ 11,639,357</b>	<b>\$ 10,988,925</b>

**Deferred Compensation Plan**

The Pool offers a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is available to all Pool employees and permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or qualifying emergency. The Pool contributed \$1,958,954 and \$1,804,411 during the years ended September 30, 2025, and 2024, respectively, to the 457 plan. These amounts are included in G&A expenses on the accompanying statements of operations and changes in net position.

**Allocations**

Investment income (without unrealized gains/(losses)) is allocated monthly to each fund based on each fund's beginning month's pooled cash balance. Unrealized gains/(losses) are allocated monthly to each fund based on each fund's ending cash balance. Departmental expenses directly attributable to the Workers' Compensation Department were allocated 100% to the Workers' Compensation Fund. The expenses directly attributable to the Liability and Property Departments are allocated 65% and 35% to the Liability and Property Funds, respectively. G&A expenses not directly attributable to a particular fund are allocated 90% to Workers' Compensation, Liability and Property Funds at percentages of 50%, 25% and 25%, respectively. The other 10% is allocated to the Reinsurance and Stability Funds at 90% and 10%, respectively. Starting October 1, 2024, one-twelfth of \$100,000 of the Liability Fund's G&A expenses are allocated to the Cyber Fund on a monthly basis.

**Estimates**

The Pool's annual financial report contains required estimates in accordance with GAAP. All such estimates are reviewed and approved by management and are based on the most current and accurate information available at the time. Actual results, when known, could vary significantly from these estimates.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**Subsequent Events**

The Pool has evaluated subsequent events for disclosure and recognition through December 12, 2025, the date on which these financial statements were available to be issued.

**NOTE 3 – CASH AND CASH EQUIVALENTS**

The bank balances of the Pool's cash and cash equivalents are \$73,892,471 and \$37,308,576 at September 30, 2025, and 2024, respectively. The difference between the bank balances and the recorded cash balances on the statement of net position is due to the outstanding checks net of deposits in transit of \$0 and \$133,642 at September 30, 2025, and 2024, respectively. The cash balances are \$73,892,471 and \$37,174,934 at September 30, 2025, and 2024, respectively.

Cash equivalents invested in TexPool, a Local Government Investment Pool (LGIP), amounted to \$50,742,441 and \$15,286,109 at September 30, 2025, and 2024, respectively. Per GASB Statement No. 79, Certain External Investment Pools and Pool Participants, TexPool utilizes amortized cost for valuation and financial reporting. The Pool also invests in money market funds that are recorded at fair value which approximates cost. There are no limitations or restrictions on withdrawals from TexPool or money market funds except for daily trading time deadlines.

**NOTE 4 – INVESTMENTS**

Investing is a primary ongoing operation of the Pool, and it is the Pool's policy to consider investment income as an important component of operating income. Under provisions of the Pool's investment policy, and in accordance with regulations for investment of public funds in the State of Texas (i.e., the Public Funds Investment Act), the Pool may invest in the following types of investments:

1. Obligations of the United States or its agencies and instrumentalities, including the Federal Home Loan Banks
2. Direct obligations of the State of Texas or its agencies and instrumentalities
3. Mortgage-backed securities directly issued by a federal agency or instrumentality except for collateralized mortgage obligations
4. Other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of the State of Texas or the United States or their respective agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States
5. Obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent
6. Certificates of deposit and share certificates authorized by section 2256.010 of the Public Funds Investment Act
7. Repurchase agreements authorized by section 2256.011 of the Public Funds Investment Act
8. No-load money market mutual funds authorized by section 2256.014 of the Public Funds Investment Act
9. No-load mutual funds authorized by section 2256.014 of the Public Funds Investment Act
10. Investment Pools authorized by sections 2256.016 and 2256.019 of the Public Funds Investment Act
11. Interest-bearing banking deposits guaranteed or insured by the Federal Deposit Insurance Corporation or its successor.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

Following is a list of investments that are authorized by the Pool in accordance with the provisions of Chapter 504 of the Texas Labor Code and the prudent person rule:

1. Obligations of corporations rated as investment grade by a nationally recognized investment rating firm and having received a rating of not less than BBB- or its equivalent
2. Mutual funds invested in below grade corporate bonds with a weighted average rating of B or above
3. Stock (Equities) of companies traded on US stock exchanges
4. Mutual funds invested in stocks traded on US stock exchanges
5. Commercial mortgage-backed securities (CMBS) rated BBB- or above by a nationally recognized credit rating agency
6. Asset-backed securities (ABS) rated BBB- or above by a nationally recognized credit rating agency
7. Non-agency residential mortgage mortgage-backed securities (RMBS) rated BBB- or above by a nationally recognized rating agency.

Credit risk is the risk that an issuer or other counterpart to an investment will not fulfill its obligations. Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. In accordance with the Pool's investment policy and state law, preservation and safety of principal is the primary objective of the Pool's investment program and is addressed by purchasing the highest quality and creditworthy investments (see list of authorized investments above).

As of September 30, 2025, and 2024, the percentage of the Pool's cash equivalents invested in a government money market fund at Principal was 15% and 49.9%, respectively. The percentage of the Pool's cash equivalents invested in TexPool as of September 30, 2025, and 2024 was 80.7% and 81.8%, respectively. The remainder of the cash equivalents were invested in a money market fund account at Frost Bank. The Federal Deposit Insurance Corporation (FDIC) insures amounts on deposit up to the limits as prescribed by law. For funds above the FDIC insured amount, the Pool requires the depository to place securities as collateral in accordance with state law and the Pool's investment policy. Cash equivalents held in government money market funds at Principal and Frost Bank and in TexPool are not FDIC insured. The government money market funds are registered and regulated by the Securities and Exchange Commission (SEC), and the Texas State Comptroller of Public Accounts oversees TexPool. The Pool does not believe it is exposed to significant credit risk. Neither the Pool's investment policy nor state law places a limit on the amount the Pool may invest in a single authorized issuer.

The Pool categorizes its investments fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Pool had the following recurring fair value measurements for the years ended September 30 as follows:

Investments by fair value level	9/30/25	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
U.S. Treasury Securities	\$ 8,384,053	\$ 8,384,053	\$ -	\$ -

The amortized cost and estimated fair value of long-term and short-term fixed income investments at September 30, 2025, and 2024, by expected maturity, are shown below. Actual maturities will vary from expected maturities as borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

<b>Investment Maturity</b>	<b>September 30, 2025</b>		<b>September 30, 2024</b>	
	<b>Amortized Cost</b>	<b>Fair Value</b>	<b>Amortized Cost</b>	<b>Fair Value</b>
Due in one year or less	\$ 20,231,192	\$ 20,071,179	\$ 34,837,280	\$ 34,345,728
Due after one year through five years	91,567,979	89,042,884	85,396,012	82,503,169
Due after five years through ten years	91,451,074	87,891,091	109,808,552	104,408,733
Due after ten years	66,327,467	56,654,553	70,668,877	61,225,361
Mortgage-Backed Securities due after one year	482,488,771	454,781,936	412,995,746	385,998,704
Equity and Bond Mutual funds	120,930,668	159,552,370	115,776,472	144,436,672
<b>Total</b>	<b>\$ 872,997,151</b>	<b>\$ 867,994,013</b>	<b>\$ 829,482,939</b>	<b>\$ 812,918,367</b>

Investment income included in the Statements of Operations and Changes in Net Position for the years ended September 30 are as follows:

<b>Investment Income</b>	<b>2025</b>	<b>2024</b>
Investment Income (interest & dividend income)	\$ 38,579,077	\$ 34,832,120
Net unrealized gains (losses)	\$ 11,561,454	\$ 75,488,172
Amortization of discounts (premiums)	(1,374,696)	(2,179,588)
Net realized gains (losses)	(159,124)	(607,868)
<b>Investment Income (change in fair value)</b>	<b>\$ 10,027,634</b>	<b>\$ 72,700,716</b>

The interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Pool's investment policy addresses interest rate risk by establishing a custom benchmark based on the intent and ability to buy investments and hold them until they mature. However, the Pool may sell securities as a prudent

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

measure based on market conditions. To guide the buying and holding of investments, the Pool utilizes a custom benchmark that accounts for expected payments of liabilities and the Pool's objectives for utilizing Members' Equity.

The custom benchmark for investments governed by the Public Funds Investment Act is the following:

- 70% weighting to the Barclays Capital MBS Fixed Rate Index
- 20% weighting to the Barclays Capital Intermediate Taxable Municipal Index
- 10% weighting to the Barclays Capital Intermediate Government Index

The custom benchmark for investments governed by Chapter 504 of the Texas Labor Code is the following:

- 50% weighting to the Barclays US Intermediate Corporate Bond Index
- 13.125% weighting to the FTSE High Dividend Yield Index (TGPVAN)
- 13.125% weighting to the S&P U.S. Dividend Growers Index (SPUDIGUT)
- 4.375% weighting to the FTSE All-World Ex-U.S. Dividend Growers TR Index (SPGDIGUT)
- 15% weighting to the 95% U.S. High-Yield Ba/B 2% Issuer Capped Index and 5% U.S. Treasury 1-5 Years (I31551US)

The estimated effective duration is used to assess interest rate risk by estimating the sensitivity of fixed income securities to interest rate changes. The effective duration estimates the percentage change in the fair value of an investment (or an investment portfolio) for a one percent change in interest rates. It makes assumptions regarding the most likely timing and amounts of variable cash flows for investments that are highly sensitive to interest rate changes, such as mortgage-backed securities, callable bonds, and variable-rate debt.

<b>As of September 30, 2025</b>	<b>Fair Value</b>	<b>Estimated Effective Duration</b>
U.S. Treasury	\$ 8,384,053	6.14
Municipal Bonds	117,828,388	5.61
Mortgage Backed Securities	454,781,936	5.90
Corporate Bonds	127,447,265	4.15
Bond Mutual Funds	42,673,644	2.90
Equity Mutual Funds	116,878,727	N/A
<b>Total Investments</b>	<b>\$ 867,994,013</b>	<b>4.60</b>

*The estimated effective duration of the custom benchmark at September 30, 2024 was 5.08.*

### Leases

The Pool identified two leases that qualify for treatment under GASB 87:

**Lease 1 – Mesquite Field Office** – Mesquite Field Office – The Pool leases a remote field office from International Town East Tower LP at 18601 LBJ Freeway, Suite 201 in Mesquite, Texas. The office is used to better serve members in that geographical region. At 10/1/2022, the Pool's lease for the Mesquite field office was due to terminate on 11/30/2023 and considered short-term, negating the need for any restatement of prior periods. During the 2022-23 fund year, the lease was extended 3 years. The discount period will be 48 months, beginning on 12/1/2022 and terminating 11/30/2026. The initial Mesquite lease valuation was as follows:

Present Value of Lease Payments: \$291,432

Total Lease Payments: \$305,171

**Lease 2 – Switch (Formerly known as Data Foundry)** – The Pool leases space from Switch to house core infrastructure and systems (data servers). Variable costs such as utilities and certain services provided by Switch are excluded from the valuation. The contract is set to be automatically renewed for three years at the end of every lease term. At 10/1/2022, the Pool was beginning the second year of a three-year lease term, necessitating a restatement of prior periods. The difference between the Net Asset value and the Lease Liability at 10/1/2022 will be adjusted through net position. Management determined that this contract is likely to be renewed for no less than a period of 10 years or 120 months, which was used as the discount period. A 3% increase was added to the

# Texas Municipal League Intergovernmental Risk Pool

## Notes to the Financial Statements

### For the Fiscal Year Ended September 30, 2025

future renewal amounts to account for potential inflationary price increases. The initial Switch lease valuation was as follows:

Present Value of Lease Payments: \$385,955  
Total Lease Payments \$431,165

The recognition of the right-of-use lease assets and their valuations at September 30, 2025 are as follows:

Right of Use Lease Assets @ 10/1/2024				Right of Use Lease Assets @ 9/30/2025			
	Net Asset Balance	Accumulated Amortization	Gross Asset Balance		Net Asset Balance	Accumulated Amortization	Gross Asset Balance
Mesquite	\$ 157,859	\$ 133,573	\$ 291,432	Mesquite	\$ 85,001	\$ 206,431	\$ 291,432
Switch	295,728	126,741	422,469	Switch	253,481	168,988	422,469 *
<b>Total</b>	<b>\$ 453,587</b>	<b>\$ 260,314</b>	<b>\$ 713,901</b>	<b>Total</b>	<b>\$ 338,482</b>	<b>\$ 375,419</b>	<b>\$ 713,901</b>

\*A small correction was made 7/31/2024 to the Switch valuation resulting in an increase in asset value of \$322

The schedule of principal payments (liability reduction) and interest expenses related to the lease liability are as follows:

		Mesquite	Switch**	Total		Mesquite	Switch**	Total
Year 1 - 22/23	<b>Cash</b>	\$ 75,850	\$ 46,236	\$ 122,086	Year 5	<b>Cash</b>	11,897	47,623
	<b>Interest Expense</b>	5,254	9,129	14,383		<b>Interest Expense</b>	12	5,149

	<b>Interest Expense</b>	1,104	6,197	7,301		\$ 291,432	\$ 386,293	\$ 677,725
	<b>Liability Reduction</b>	70,280	41,426	111,706				

\*\* The difference between Net Asset Value and Lease Liability at 10/1/22 for Switch was \$6,022, which was recorded as an adjustment to Net Position.

### Subscription-Based Information Technology Arrangements (SBITAs)

The Pool identified four contracts that meet the threshold for materiality and qualify for treatment under GASB 96:

**SBITA 1 – Guidewire Inc.** – The Pool uses Guidewire software for underwriting, claims management, billing, managing contacts, reporting, and analytics. The contract with Guidewire automatically renews for one year at the end of each term. For this reason, the Pool will begin valuation in the year of adoption, or as of October 1, 2022. Management determined the discount period will match the Pool's depreciation period for software assets of 7 years or 84 months. Guidewire may increase the annual subscription fee a minimum of 3% with proper written notice. A 3% increase in annual payments was added to reflect this contract term. This contract is based upon a base amount and a variable amount for Direct Written Premiums, DWPs, above a certain threshold. These amounts, although variable, are fixed in substance and are included in the valuation (the Pool's written contributions have increased each year over the last six years). The Guidewire SBITA initial valuation was as follows:

Present Value of SBITA Payments: \$7,684,734  
Total SBITA Payments: \$8,113,326

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**SBITA 2 - Microsoft Office 365 (SHI Government Solutions Inc.)** – The Pool uses the Microsoft Office 365 suite of products across the organization for email, Teams calling and messaging, and Windows cloud computing. The current contract was signed in May of 2022 with a three-year term and the Pool will begin valuation in the year of adoption, or as of October 1, 2022. There is also a three-year renewal option in the contract which is more than likely to be exercised given the importance of these systems to the Pool's core operations. To align with the other identified SBITAs in consistency, management has elected a seven-year valuation period, and a 3% inflation adjustment is added to future annual renewals to account for potential future price increases. The Office 365 initial valuation was as follows:

Present Value of SBITA Payments: \$1,589,628  
Total SBITA Payments: \$1,734,820

**SBITA 3 - FreeIT Data Solutions (Disaster Recovery as a Service (DRaaS))** – The Pool contracted with FreeIT Data Solutions to provide virtual systems in the cloud to serve as a back-up in the event the Pool's primary systems went down. The contract also has a variable element for any onsite technician work that is required. These costs have been excluded from the valuation. The initial contract begins on October 1, 2023, and terminates on September 30, 2026. Management has determined that this contract is likely to be renewed in the future and has elected a seven-year discount period to be consistent with the other identified SBITAs. Additionally, a 3% price increase in annual payments has been added to future renewals to provide a conservative estimate of potential future costs and remain consistent across all SBITAs. The DRaaS initial valuation was as follows:

Present Value of SBITA Payments: \$684,425  
Total SBITA Payments: \$745,924

**SBITA 4 - NEO Gov (HRIS Software)** – The Pool contracted with NEO Gov to implement a comprehensive HRIS system to process onboarding, payroll, benefits, time & attendance, and various other HR functions. The system will be implemented in phases, beginning with the onboarding function, which has already begun as of 9/30/2025. Implementation costs of \$36,500 have been added to the initial valuation of the subscription asset. Management has determined that this contract is likely to be renewed in the future and has elected a seven-year discount period to be consistent with the other identified SBITAs. The initial NEO Gov valuation was as follows:

Present Value of SBITA Payments: \$631,596  
Total SBITA Payments: \$698,615

The value of the Subscription Assets at October 1, 2024 and their valuations at September 30, 2025 are as follows:

Subscription Assets @ 10/1/2024				Subscription Assets @ 9/30/2025			
	Net Asset Balance	Accumulated Amortization	Gross Asset Balance		Net Asset Balance	Accumulated Amortization	Gross Asset Balance
Guidewire	\$ 5,489,096	\$ 2,195,638	\$ 7,684,734	Guidewire	\$ 4,746,668	\$ 3,560,001	\$ 8,306,669

	Liability Reduction	801,632	175,018	-	-	976,650		Liability Reduction	1,231,714	228,785	92,956	27,817	1,581,272	
Year 2	Cash	1,144,480	250,000	104,312	-	1,498,792	Year 5	Cash	1,389,635	257,500	107,441	79,028	1,833,604	
	Interest Expense	174,174	32,362	15,885	-	222,421		Interest Expense	85,745	15,327	8,962	14,126	124,160	
	Liability Reduction	970,306	217,638	88,427	-	1,276,371		Liability Reduction	1,303,890	242,173	98,479	64,902	1,709,444	
Year 3	Cash	1,309,864	250,000	104,312	8,198	1,672,374	Years 6-10	Cash	2,905,587	515,000	325,546	568,198	4,314,331	
	Interest Expense	147,379	26,858	13,648	3,921	191,806		Interest Expense	68,945	12,128	11,647	33,598	126,318	
	Liability Reduction	1,162,485	223,142	90,664	4,277	1,480,568		Liability Reduction	2,836,642	502,872	313,899	534,600	4,188,013	
									Total Liability Reduction	\$ 8,306,669	\$ 1,589,628	\$ 684,425	\$ 631,596	\$ 11,212,318

The liabilities for leases and SBITAs are presented in two portions, current and long-term. The current portion of the liability is the present value of all payments to be made in the next twelve months. The long-term portion of the liability is the present value of all payments to be made beyond the next twelve months. They are detailed as follows:

Lease Liability - Leases (Present Value of future lease payments) @ 9/30/2025				SBITA Liability - SBITAs (Present Value of future subscription payments) @ 9/30/2025			
	Current Portion (12 months)	Long Term Portion	Total Liability		Current Portion (12 months)	Long Term Portion	Total Liability
Mesquite	\$ 70,280	\$ 11,886	\$ 82,166	NEO Gov	\$ 27,817	\$ 599,502	\$ 627,319
Switch	41,426	229,321	270,747	DRaaS	92,956	412,378	505,334
Total	\$ 111,706	\$ 241,207	\$ 352,913	Guidewire	1,231,714	4,140,532	5,372,246
				Office 365	228,785	745,045	973,830
				Total	\$ 1,581,272	\$ 5,897,457	\$ 7,478,729

## NOTE 6 – OTHER ASSETS

Lease receivable includes the short-term portion of the lessor receivable with TML. The balances on September 30 are as follows:

	Workers'							2025	2024
Lease Receivable	Compensation	Liability	Property	Cyber	Reinsurance	Stability			
Lease Receivable	\$ 102,063	\$ 50,521	\$ 51,032	\$ 510	\$ 20,413	\$ 2,268	\$ 226,807	\$ 221,213	
Deferred Resources - Lease	(109,828)	(54,365)	(54,915)	(549)	(21,966)	(2,441)	(244,064)	(244,064)	
Total	\$ (7,765)	\$ (3,844)	\$ (3,883)	\$ (39)	\$ (1,553)	\$ (173)	\$ (17,257)	\$ (22,851)	

At September 30, the balance of other assets consisted of the following:

	Workers'							2025	2024
Other Assets	Compensation	Liability	Property	Cyber	Reinsurance	Stability			
Deposit with NLC-MIC	\$ 39,518	\$ 227,973	\$ 293,576	\$ -	\$ -	\$ -	\$ 561,067	\$ 561,067	
Deposit with WC Alliance	56,864	-	-	-	-	-	56,864	56,864	
Prepaid Expenses	66,882	33,108	33,442	333	13,376	1,487	148,628	84,780	
Rent Deposits	4,911	2,430	2,455	24	982	109	10,911	10,912	
Receivable from Lease	836,851	414,239	418,430	4,182	167,374	18,596	1,859,672	2,086,479	
Deferred Resources - Lease	(809,985)	(400,942)	(404,996)	(4,047)	(162,000)	(17,999)	(1,799,969)	(2,044,032)	
Total	\$ 195,041	\$ 276,808	\$ 342,907	\$ 492	\$ 19,732	\$ 2,193	\$ 837,173	\$ 756,070	

The deposit with the National League of Cities Mutual Insurance Company (NLC-MIC) is based upon the level of reinsurance purchased from them.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

At September 30, 2025, the Pool's equity interest in NLC-MIC was \$8,747,771 which is \$8,186,704 more than the Pool's recorded cost basis. At September 30, 2024, the equity interest was \$8,311,298, which was \$7,750,231 more than the recorded basis.

The Pool has an office lease agreement with the TML. Lease payments of \$22,983.90 are made by TML to the Pool on a month-to-month basis. The intent of this arrangement is long-term, so management chose a 10-year period to capitalize this lease under GASB 87.

Payments began on February 15, 2024, and the initial valuation was:

Present Value of Lease Receivable and Deferred Inflow of Resources: \$2,440,635  
Total Lease Payments: \$2,758,068

As of September 30, 2025 and 2024, the lease receivable balance was \$2,086,479 and \$2,307,692, respectively.

	<u>Current</u>		<u>Non-Current</u>		<u>Total</u>	
	<u>2025</u>	<u>2024</u>	<u>2025</u>	<u>2024</u>	<u>2025</u>	<u>2024</u>
<b>Lease Receivable</b>	\$ 226,807	\$ 221,213	\$ 1,859,672	\$ 2,086,479	\$ 2,086,479	\$ 2,307,692
<b>Deferred Inflow of Resources</b>	(244,064)	(244,064)	(1,799,969)	(2,044,032)	(2,044,033)	(2,288,096)
<b>Total</b>	<u>\$ (17,257)</u>	<u>\$ (22,851)</u>	<u>\$ 59,703</u>	<u>\$ 42,447</u>	<u>\$ 42,446</u>	<u>\$ 19,596</u>

The Pool expects to receive the following lease receivable amounts from TML in subsequent years as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>
2026	\$ 226,807	\$ 49,000
2027	232,543	43,265
2028	238,423	37,384
2029	244,452	31,355
2030	250,634	25,173
2031 - 2034	893,620	37,226
<b>Total</b>	<u><b>\$ 2,086,479</b></u>	<u><b>\$ 223,403</b></u>

The balance of deferred inflows of resources for the lease receivable was \$2,044,033 and \$2,288,096 at September 30, 2025 and 2024, respectively. The total amount of inflows of resources relating to the lease recognized are as follows:

<u>Inflows of Resources</u>	<u>2025</u>	<u>2024</u>
Lease Revenue	\$ 244,064	\$ 152,540
Interest Revenue	\$ 54,594	\$ 39,436

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

## NOTE 7 – CONTRACT SERVICE FEES

The Pool utilizes several contractors for underwriting, reinsurance brokerage and data processing services. Noted in the table below and included in the Statements of Operations were contract service fees for the fiscal years ending September 30, 2025, and 2024.

Contract Service Fees	2025	2024
Workers' Compensation	\$ 832,130	\$ 1,037,782
Liability	109,791	243,539
Property	101,380	237,136
Reinsurance	36,537	91,770
Stability	4,060	10,197
<b>Total</b>	<b>\$ 1,083,898</b>	<b>\$ 1,620,424</b>

## NOTE 8 – REINSURANCE

For fiscal years ending September 30, 2025, and 2024, the following Funds carry excess reinsurance as outlined below:

- **Workers' Compensation Fund**
  - Beginning October 1, 2021, and continuing through September 30, 2025, carries excess reinsurance with the Reinsurance Fund up to \$8 million over a retention limit of \$2 million and retains 50% of losses in this layer.
  - Beginning November 1, 2020, the Workers' Compensation Fund carries a catastrophic retention limit of \$15 million excess of \$10 million.
- **Liability Fund**
  - Beginning October 1, 2021, and continuing through September 30, 2025, carries excess reinsurance with the Reinsurance Fund over a retention of \$2 million and retains 25% of losses exceeding \$2 million.
- **Cyber Fund**
  - Retains a 25% quota share of the first \$50,000 of losses related to Cyber & Data Breach coverage.
  - Retains 100% of Cyber & Data Breach losses exceeding \$50,000 up to policy limits.
- **Property Fund**
  - Carries a specific retention limit of \$4 million per occurrence and retains 50% of the \$6 million excess of \$4 million layer.
    - Through April 30, 2025, the Reinsurance Fund assumes the following:
      - a 50.00% quota share for the \$6 million excess of \$4 million layer,
      - a 50.00% quota share of the \$15 million excess of \$10 million layer,
      - a 63.50% quota share of the \$25 million excess of \$25 million layer,
      - a 6.00% quota share of the \$25 million excess of \$25 million layer for a 2<sup>nd</sup> event,
      - a 5.00% quota share of the \$50 million excess of \$50 million layer,
      - a 5.00% quota share of the \$50 million excess of \$100 million layer,
      - a 5.00% quota share of the \$50 million excess of \$150 million layer,
      - a 5.00% quota share of the \$50 million excess of \$200 million layer,
      - a 5.00% quota share of the \$50 million excess of \$250 million layer, and
      - a 5.00% quota share of the \$80 million excess of \$300 million layer.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

- Beginning on May 1, 2025, the Property Fund carries a specific retention limit of \$4 million per occurrence and retains 50% of the \$6 million excess of \$4 million layer.
  - The Reinsurance Fund assumes the following:
    - a 50.00% quota share for the \$6 million excess of \$4 million layer,
    - a 50.00% quota share of the \$15 million excess of \$10 million layer,
    - a 58.50% quota share of the \$25 million excess of \$25 million layer,
    - a 5.00% quota share of the \$25 million excess of \$25 million layer for a 2<sup>nd</sup> event,
    - a 3.25% quota share of the \$50 million excess of \$50 million layer,
    - a 5.00% quota share of the \$50 million excess of \$100 million layer,
    - a 5.00% quota share of the \$50 million excess of \$150 million layer,
    - a 5.00% quota share of the \$50 million excess of \$200 million layer,
    - a 5.00% quota share of the \$50 million excess of \$250 million layer, and
    - a 5.00% quota share of the \$80 million excess of \$300 million layer.
- **Reinsurance Fund**
  - Carries a second event cover for the \$25 million excess of \$25 million layer.
    - Through April 30, 2025, assumed a 57.5% quota share of the \$25 million excess of \$25 million layer.
    - Beginning on May 1, 2025, assumes a 53.5% quota share of the \$25 million excess of \$25 million layer.

Payments to reinsurers are recognized over the term of the contracts. Reserves for losses and loss adjustment expenses are stated after deduction for reinsured estimated losses; however, the Pool is liable for these amounts in the event the reinsurers are unable to pay their portion of the claims.

The amounts anticipated to be recovered from outside reinsurance on case reserves and IBNR at September 30, 2025, and 2024 were as follows:

Fund		September 30, 2025			September 30, 2024

The gross liabilities shown above are net of discounting.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

Approximately 90.7% of the 2025 recoverable balance represents reserves from reinsurers rated “Superior”, “Excellent”, “Good” or “Strong” by A.M. Best Company or Standard and Poor’s. The Pool is a participating member of NLC-MIC (not rated), which provides excess insurance coverage accounting for 9.3% of the reinsurance recoverable.

## NOTE 9 – RELATED PARTY TRANSACTIONS

The Pool has an administrative services contract with TML for certain management and licensing fees related to the use of the organization’s name. For fiscal years 2025 and 2024, these fees totaled \$1,029,160 and \$1,001,682, respectively.

The Pool has an office lease agreement with TML as disclosed in Note 6.

The Pool has an arrangement to invest funds owned by TML. The amount of these funds, which was recorded as both an investment asset and a liability on the financial statements, is shown in the table below.

<b>Related Party Transactions</b>	<b>2025</b>	<b>2024</b>
Beginning TML Investments	\$ 8,084,976	\$ 7,082,815
Investment Income	215,880	202,161
Deposits	-	800,000
<b>Total</b>	<b>\$ 8,300,856</b>	<b>\$ 8,084,976</b>

The Pool invests funds in TexPool. The same municipalities that the Pool insures may also be members in TexPool investments as further disclosed in Note 4.

The Pool’s Executive Director serves on the NLC-MIC Board of Directors.

The Pool is a member of the Political Subdivision Workers’ Compensation Alliance (Alliance), which is an intergovernmental arrangement to develop and maintain network medical services for workers’ compensation providers within the State of Texas. In January 2019, the Pool entered an interlocal agreement with the Alliance to provide administrative and operational services. The annual management fee for 2025 and 2024 was \$883,740 and \$858,000, respectively. The Pool’s Executive Director serves on the Alliance’s Board of Directors.

## NOTE 10 – DEFINED BENEFIT PENSION PLAN

### Plan Description

The Pool provides pension benefits for its eligible employees through a non-traditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), an agent multiple-employer public employee retirement system. The plan provisions adopted by the Pool are within the options available in the governing state statutes of TMRS.

TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for TMRS. The report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by TMRS. This report may be obtained from the TMRS website at [www.tmrs.com](http://www.tmrs.com). Questions concerning the Pool’s retirement provisions should be directed to the Chief Financial Officer at the Texas Municipal League Intergovernmental Risk Pool at (512) 491-2300.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**Benefits Provided**

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the Pool, within the options available in the state statutes governing TMRS. The plan provisions adopted by the Pool's Board of Trustees as of September 30, 2025, and 2024 are reflected below.

<b>Plan Provisions</b>	<b>Plan Year 2024</b>	<b>Plan Year 2023</b>
Employee deposit rate (Employee)	7.0%	7.0%
Matching ratio (Pool to Employee)	2 to 1	2 to 1
Years required for vesting	10	10
Service retirement eligibility (expressed as age / years of service)	60/10, 0/25	60/10, 0/25
Updated Service Credit	100% Repeating	100% Repeating
Annuity Increase (to retirees)	70% of CPI	70% of CPI
Supplemental Death Benefits (to active employees)	Yes	Yes
Supplemental Death Benefits (to retirees)	Yes	Yes
Military Service Credit	Yes	Yes
Buyback Service	Yes	Yes

Members can retire at certain ages, based on the years of service with the Pool and prior service with participating local governments. The Service Retirement Eligibilities for the Pool are: 10 years/age 60, 25 years/any age.

In addition to the annually repeating updated service credit, the Pool elected to provide an annually repeating annuity adjustment at 70% of the increase in the Consumer Price Index and supplemental death benefits to both active and retired employees. In 2016, the Pool added the transfer service option to its plan's provisions.

**Employees covered by benefit terms**

At December 31, 2024, and 2023 valuation and measurement dates, the following numbers of employees were covered by the benefit terms:

	<b>Plan Valuation Year</b>	
	<b>2024</b>	<b>2023</b>
Active employees	258	251
Inactive employees or beneficiaries currently receiving benefits	139	131
Inactive employees entitled to but not yet receiving benefits	52	54
	<b>449</b>	<b>436</b>

**Contributions**

Under the state law governing TMRS, the contribution rate for the Pool is determined annually by the TMRS actuary, using the Entry Age Normal (EAN) actuarial cost method. This rate consists of the normal cost contribution rate and the prior service cost contribution rate, which is calculated to be a level percent of the Pool's payroll from year to year. The normal cost contribution rate finances the portion of the Pool's projected benefit allocated annually; the prior service contribution rate amortizes the unfunded actuarial liability over the applicable period for the Pool.

# Texas Municipal League Intergovernmental Risk Pool

## Notes to the Financial Statements

### For the Fiscal Year Ended September 30, 2025

Both the normal cost and prior service contribution rates include recognition of the projected impact of annual repeating benefits, such as Updated Service Credits and annuity increases.

#### **Schedule of Contributions for Plan Years 2024 and 2023**

Notes	Actuarially determined contribution rates are calculated as of December 31 and become effective in January, 13 months later.
-------	--

The Pool contributes to the TMRS Plan at an actuarially determined rate. Both the employees and the Pool make contributions monthly. The contribution rates for the Pool were 11.30% and 11.84% in calendar years 2025 and 2024, respectively. The Pool's contributions to TMRS for the year ended September 30, 2025, were \$3,659,453. For the year ended September 30, 2024, the contributions were \$3,492,121.

#### **Net Pension Asset (Liability)**

The Pool's Net Pension Asset (Liability) was measured as of December 31, and the Total Pension Liability used to calculate the Net Pension Asset (Liability) was determined by an actuarial valuation as of that date.

#### **Actuarial Assumptions**

The Total Pension Asset (Liability) in the December 31, 2024, and 2023 actuarial valuations was determined using the following actuarial assumptions:

#### **2024 Plan Valuation Methods and Assumptions**

##### **Methods and Assumptions used to Determine Contribution Rates:**

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	20 years (longest amortization ladder)
Asset Valuation Method	10 Year Smoothed Market; 12% soft corridor
Inflation	2.50%
Salary Increases	3.60% to 11.85% including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that vary by age. Last updated for the 2023 valuation pursuant to an experience study of the period ending 2022.
Mortality	Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. Male rates are multiplied by 103% and female rates are multiplied by 105%. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence). Pre-retirement: PUB(10) mortality tables, with the 110% of the Public Safety table used for males and the 100% of the General Employee table used for females. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence).

##### **Other Information:**

Notes	There were no benefit changes during the year.
-------	--

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**2023 Plan Valuation Methods and Assumptions**

**Methods and Assumptions used to Determine Contribution Rates:**

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	21 years (longest amortization ladder)
Asset Valuation Method	10 Year Smoothed Market; 12% soft corridor
Inflation	2.50%
Salary Increases	3.60% to 11.85% including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that vary by age. Last updated for the 2023 valuation pursuant to an experience study of the period ending 2022.
Mortality	Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. Male rates are multiplied by 103% and female rates are multiplied by 105%. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence). Pre-retirement: PUB(10) mortality tables, with the 110% of the Public Safety table used for males and the 100% of the General Employee table used for females. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence).

**Other Information:**

Notes	There were no benefit changes during the year.
-------	--

Actuarial assumptions used in the December 31, 2024, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period ending December 31, 2022. Health post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013, valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

The target allocation and best estimates of real rates of return for each major asset class are summarized below:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Long-Term Expected Real Rate of Return (Arithmetic)</b>
Global Public Equity	35%	6.7%
Core Fixed Income	6%	4.7%
Non-Core Fixed Income	20%	8.0%
Other Public and Private Markets	12%	8.0%
Real Estate	12%	7.6%
Hedge Funds	5%	6.4%
Private Equity	10%	11.6%
<b>Total</b>	<b>100%</b>	

**Discount Rate**

The discount rate used to measure the Total Pension Asset (Liability) was 6.75% at December 31, 2024. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

The following presents the net pension (asset) liability of the Pool, as well as what the Pool's net pension asset (liability) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

<b>Sensitivity of the Net Pension Liability to Changes in the Discount Rate</b>		
<b>1% Decrease 5.75%</b>	<b>Current Single Discount Rate Assumption 6.75%</b>	<b>1% Increase 7.75%</b>
\$30,518,368	\$1,532,821	(\$22,704,375)

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements

Contributions made subsequent to measurement date	2,734,376	-	2,734,376
<b>Total</b>	<b>\$ 4,449,007</b>	<b>\$ 1,138,608</b>	<b>\$ 3,310,399</b>

\* Prior Years' is composed of Plan Years 2019 - 2023

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

At September 30, 2024, the Pool reported deferred outflows and inflows of resources related to pensions from the following sources (calendar year basis):

**Schedule of Outflows and Inflows - Current and Future Expenses**

	<b>Total (Inflows) or Outflows of Resources</b>	<b>2023 Recognized in current pension expense</b>	<b>Deferred (Inflows)/Outflows in future expense</b>
<b><u>Prior Years*</u></b>			
Difference between expected and actual experience	\$ 2,701,053	\$ 763,366	\$ 1,937,687
Difference in assumptions changes	201,706	130,978	70,728
Difference between projected and actual earnings on pension plan investments	13,052,969	644,598	12,408,371
<b><u>2023 Plan Year</u></b>			
Difference between expected and actual	(1,149,824)	(246,744)	(903,080)
Difference in assumptions changes	(750,451)	(161,041)	(589,410)
Difference between projected and actual earnings on pension plan investments	(9,079,755)	(1,815,951)	(7,263,804)
Deferred Pension Items	4,975,698	(684,794)	5,660,492
Contributions made subsequent to measurement date	2,706,866	-	2,706,866
<b>Total</b>	<b>\$ 7,682,564</b>	<b>\$ (684,794)</b>	<b>\$ 8,367,358</b>

\* Prior Years' is composed of Plan Years 2018 - 2022

The schedule below reflects the deferred outflows and inflows of resources at September 30, 2025, that will be amortized in future pension expense.

**Schedule of Outflows and Inflows - Future Pension Expense**

<b>Year</b>	<b>Net Deferred Outflows/(Inflows) of Resources*</b>
2025	\$ 1,311,762
2026	3,181,696
2027	(2,789,590)
2028	(1,127,845)
2029	-
Thereafter	-
<b>*Total</b>	<b>\$ 576,023</b>

\*Excludes contributions of \$2,734,376 remitted to TMRS subsequent to the December 31, 2024 measurement date.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**Pension Charges (Credits)**

The Pool recorded Pension Expense reconciling items as Pension Charges (Credits) as follows:

<b>Pension Charges (Credits)</b>	<b>2025</b>	<b>2024</b>
Capitalized TMRS Contributions	\$ -	\$ -
Changes in Deferred Contributions	-	-
Differences Between Contributions per the Pool and TMRS	-	4,758
<b>Total Pension Charges</b>	<b>\$ -</b>	<b>\$ 4,758</b>

As a result of Pension Charges (Credits), the following is the Pension Expense line-item amount as reported on the financial statements:

**Pension Expense**

**as Reported on the Financial Statements**

	<b>2025</b>	<b>2024</b>
Pension Expense	\$ 4,688,372	\$ 3,351,674
Pension Charges (Credits)		4,758
<b>Reported Pension Expense</b>	<b>\$ 4,688,372</b>	<b>\$ 3,356,432</b>

**Restricted Net Position**

The Pool restricted net position for pension-related assets (liabilities) due to the expected volatility in changes to the fair value of pension investments and outflow (inflows) of pension resources. Following were the balances at September 30, 2025, and 2024:

<b>Restricted Net Position</b>	<b>2025</b>	<b>2024</b>
Net Pension Asset	\$ -	\$ -
Deferred Outflows of Pension Resources (Future Expenses)	576,023	5,660,492
Deferred Outflows of Pension Resources (Contributions)	2,734,376	2,706,866
<b>Total</b>	<b>\$ 3,310,399</b>	<b>\$ 8,367,358</b>

**NOTE 11- POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)**

The Pool provides its eligible employees a defined benefit group-term life insurance through the TMRS Supplemental Death Benefits Fund (SDBF). The SDBF covers both active and retiree benefits with no segregation of assets, and therefore doesn't meet the definition of a trust under GASB Statement No. 75 *Accounting and Financial Reporting of Postemployment Benefits Other Than Pensions* (i.e., no assets are accumulated for other postemployment benefits or OPEB), and as such, the SDBF is considered an unfunded OPEB plan. The retiree portion of the SDBF is not considered a cost sharing plan and is instead considered a single-employer defined benefit OPEB plan. The Pool's contributions to the TMRS SDBF for the fiscal years ended September 30, 2025, and 2024 were \$90,919 and \$101,896 respectively, which equaled the required contributions each year.

TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for TMRS. The report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by TMRS. This report may be obtained from the TMRS website at [www.tmr.com](http://www.tmr.com). Questions concerning the Pool's OPEB provisions should be directed to the Chief Financial Officer at (512) 491-2300.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**Benefits Provided**

Benefit provisions are adopted by the governing body of the Pool, within the options available in the state statutes governing TMRS. The death benefits for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death). The death benefits for retirees are considered a postemployment benefit (OPEB) and is a fixed amount of \$7,500 per employee. As the SDBF covers both active and retiree participants, with no segregation of assets, the SDBF is considered an unfunded OPEB plan (i.e., no assets are accumulated).

**Employees covered by benefit terms**

At December 31, 2024, and 2023 valuation and measurement dates, the following numbers of employees were covered by the benefit terms:

	<b>Plan Valuation Year</b>	
	<b>2024</b>	<b>2023</b>
Inactive employees currently receiving benefits	116	107
Inactive employees entitled to but not yet receiving benefits	22	20
Active employees	258	251
	<b>396</b>	<b>378</b>

**Contributions**

The Pool contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy of the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance.

The Pool's contributions to TMRS for the plan years ended December 31, 2024, and 2023 for the retiree-only portion (OPEB) were \$18,933 and \$17,618, respectively.

**Schedule of Contributions (Retiree-only portion of the rate, for OPEB)**

Plan/Calendar Year	Total SDB	
	Contribution Rate	Retiree Portion of SDB Contribution Rate
2024	0.33%	0.06%
2023	0.33%	0.06%

**Total OPEB Liability**

The Pool's Total OPEB Liability at September 30, 2025, was \$800,664 as measured as of the December 31, 2024, actuarial valuation date. The Total OPEB Liability at September 30, 2024, was \$794,340 as of December 31, 2023, actuarial valuation date.

**Actuarial Assumptions**

The actuarial assumptions used in the December 31, 2024 and December 31, 2023 valuations were based on the results of an actuarial experience study for the period ending December 31, 2022.

# Texas Municipal League Intergovernmental Risk Pool

## Notes to the Financial Statements

### For the Fiscal Year Ended September 30, 2025

The Total OPEB Liability was determined using the following actuarial assumptions:

#### **2024 Plan Valuation Methods and Assumptions**

##### **Methods and Assumptions used to Determine Contribution Rates:**

Inflation	2.5%
Salary Increases	3.60% to 11.85% including inflation
Discount Rate	4.08%
Retirees' share of benefit-related costs	\$0
Administrative Expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68.
Mortality rates - service retirees	2019 Municipal Retirees of Texas Mortality Tables. Male rates are multiplied by 103% and female rates are multiplied by 105%. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence).
Mortality rates - disabled retirees	2019 Municipal Retirees of Texas Mortality Tables with a 4 year set-forward for males and a 3 year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence) to account for future mortality improvements subject to the floor.

#### **2023 Plan Valuation Methods and Assumptions**

##### **Methods and Assumptions used to Determine Contribution Rates:**

Inflation	2.5%
Salary Increases	3.60% to 11.85% including inflation
Discount Rate	3.77%
Retirees' share of benefit-related costs	\$0
Administrative Expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68.
Mortality rates - service retirees	2019 Municipal Retirees of Texas Mortality Tables. Male rates are multiplied by 103% and female rates are multiplied by 105%. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence).
Mortality rates - disabled retirees	2019 Municipal Retirees of Texas Mortality Tables with a 4 year set-forward for males and a 3 year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by ScaleMP-2021 (with immediate convergence) to account for future mortality improvements to the floor.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**Discount Rate**

The discount rate used to measure the Total OPEB Liability was 4.08% at December 31, 2024. The discount rate was based on the Bond Buyer "20-Bond GO Index" rate closest to, but not later than December 31, 2024.

The following presents the Total OPEB Liability of the Pool, as well as what the Pool's Total OPEB Liability would be if it were calculated using a discount rate that is 1 percentage-point lower (3.08%) or 1 percentage-point higher (5.08%) than the current rate:

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate			
	1% Decrease 3.08%	Current Discount Rate 4.08%	1% Increase 5.08%
<b>Total OPEB Liability</b>	\$951,898	\$800,664	\$680,957

**Schedule of Changes in the Total OPEB Liability**

December 31 Measurement Date			
Changes in the Total OPEB Liability	2024		2023
Total OPEB Liability - beginning of year	\$	794,340	\$ 733,859
Changes for the year:			
Service Cost		28,399	23,491
Interest on Total OPEB Liability		30,125	29,840
Changes in benefit terms		-	-
Differences between expected and actual experience		9,834	(14,531)
Changes in assumptions or other inputs		(43,101)	39,299
Benefit payments		(18,933)	(17,618)
Net Changes		6,324	60,481
<b>Total OPEB Liability - end of year</b>	<b>\$</b>	<b>800,664</b>	<b>\$ 794,340</b>
<b>Covered Payroll</b>	<b>\$</b>	<b>31,554,698</b>	<b>\$ 29,363,291</b>
<b>Total OPEB Liability as a Percentage of Covered Payroll</b>		2.54%	2.71%

**OPEB Expense and Deferred Outflows and Inflows of Resources Related to OPEB**

For the years ended September 30, 2025, and 2024, the Pool recognized OPEB expenses of \$26,876 and \$27,648 respectively, which were the same amounts reported by TMRS (calendar year basis).

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**Schedule of OPEB Expense**

**At December 31**

	<b>2024</b>	<b>2023</b>
Service Cost	\$ 28,399	\$ 23,491
Interest on Total OPEB Liability	30,125	29,840
Changes in benefit terms	-	-
Employer administrative costs	-	-
Recognition of deferred outflows/inflows of resources:		
Difference between expected and actual experience	(12,541)	(12,320)
Changes in assumptions or other inputs	(19,107)	(13,363)
<b>Total OPEB Expense</b>	<b>\$ 26,876</b>	<b>\$ 27,648</b>

At September 30, 2025, the Pool reported deferred outflows and inflows of resources related to the OPEB from the following sources:

**Schedule of Outflows and Inflows - Current and Future Expenses**

	<b>Total (Inflows) or Outflows of Resources</b>	<b>2024 Recognized in Current OPEB Expense</b>	<b>Deferred (Inflows)/Outflows in Future Expense</b>
<b><u>Prior Years*</u></b>			
Difference between expected and actual experience	\$ (32,862)	\$ (14,447)	\$ (18,415)
Difference in assumptions changes	(133,881)	(10,754)	(123,127)
<b><u>2024 Plan Year</u></b>			
Difference between expected and actual experience	9,834	1,906	7,928
Difference in assumptions changes	(43,101)	(8,353)	(34,748)
Deferred Pension Items	(200,010)	(31,648)	(168,362)
Contributions made subsequent to measurement date	14,861		14,861
<b><u>Total</u></b>	<b>\$ (185,149)</b>	<b>\$ (31,648)</b>	<b>\$ (153,501)</b>

\* Prior Years' is composed of Plan Years 2018 - 2023.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

At September 30, 2024, the Pool reported deferred outflows and inflows of resources related to the OPEB from the following sources:

Schedule of Outflows and Inflows - Current and Future Expenses			
	Total (Inflows) or Outflows of Resources	2023 Recognized in Current OPEB Expense	Deferred (Inflows)/Outflows in Future Expense
<b>Prior Years*</b>			
Difference between expected and actual experience	\$ (30,651)	\$ (9,578)	\$ (21,073)
Difference in assumptions changes	(186,543)	(20,778)	(165,765)
<b>2023 Plan Year</b>			
Difference between expected and actual experience	(14,531)	(2,742)	(11,789)
Difference in assumptions changes	39,299	7,415	31,884
Deferred Pension Items	(192,426)	(25,683)	(166,743)
Contributions made subsequent to measurement date	14,111		14,111
<b>Total</b>	<b>\$ (178,315)</b>	<b>\$ (25,683)</b>	<b>\$ (152,632)</b>

\* Prior Years' is composed of Plan Years 2017 - 2022.

The schedule below reflects the deferred outflows and inflows of resources at September 30, 2025, that will be amortized in future pension expense.

Schedule of Outflows and Inflows - Future Pension Expense	
Year	Net Deferred Outflows/(Inflows) of Resources*
2025	(50,779)
2026	(71,051)
2027	(40,456)
2028	(5,044)
2029	(1,032)
Thereafter	-
<b>*Total</b>	<b>\$ (168,362)</b>

\*Excludes contributions of \$14,861 remitted to TMRS subsequent to the December 31, 2024 measurement date.

## NOTE 12 – CONTINGENCIES

In the normal course of operations, the Pool is involved in litigation related to certain claims. In the opinion of management, the disposition of these matters will not have a materially adverse effect on the Pool's financial position.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**NOTE 13 – RECONCILIATION OF CLAIM RESERVES BY CONTRACT TYPE**

The schedule below presents the changes in claims liabilities for the years ended September 30, 2025 and 2024 for Workers' Compensation, Liability, Property, Cyber, Reinsurance, and Stability Funds:

	WORKERS' COMPENSATION		LIABILITY		PROPERTY		REINSURANCE		CYBER		STABILITY		TOTAL	
	2025	2024	2025	2024	2025	2024	2025	2024	2025	2024	2025	2024	2025	2024
<b>Reserve for losses and loss adjustment expenses at beginning of year</b>	\$203,939,558	\$203,115,404	\$175,344,365	\$158,885,173	\$45,732,759	\$42,886,239	\$19,402,114	\$19,857,486	\$0	\$0	\$20,700,000	\$16,300,000	\$465,118,796	\$441,044,302

\*Excludes Independent Adjuster Fees.

**REQUIRED SUPPLEMENTARY INFORMATION**  
**September 30, 2025**

**TEN-YEAR CLAIMS DEVELOPMENT INFORMATION**

The following tables illustrate how earned revenue (net of reinsurance) and investment income compare to related cost of loss (net of reinsurance) and other expenses as of the end of each of the last ten years. The rows of the table are defined as follows:

- (1) This line shows the total of each fiscal year's gross earned contributions and investment revenue, contributions placed with reinsurers, and net earned contributions and reported investment revenue.
- (2) This line shows each fiscal year's other operating costs, including overhead and claims' expense that cannot be allocated to individual claims.
- (3) This line shows the gross incurred claims and allocated claim adjustment expenses, claims assumed by reinsurers, and net incurred claims and allocated claim adjustment expenses (both paid and accrued) as originally reported at the end of the first year in which the event that triggered coverage under the contract occurred (called *fund year*).
- (4) This section of 10 rows shows the cumulative net amounts paid as of the end of successive years for each fund year.
- (5) This line shows the re-estimated incurred claims and expenses amount of claims as of the end of the current year for each accident year.
- (6) This section of 10 rows shows how each fund year's net incurred claims increased or decreased as of known claims, re-evaluation of existing information on known claims, as well as emergence of new claims not previously known.
- (7) This line compares the latest re-estimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual fund years mature, the correlation between original estimates and re-estimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized.

\*\*May be off due to rounding.

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**REQUIRED SUPPLEMENTARY INFORMATION**  
**September 30, 2025**

**SCHEDULE OF EMPLOYER PENSION CONTRIBUTIONS**

The schedule below shows the Pool's required annual contributions from the actuarial valuation, compared with the actual contributions remitted. The schedule is based on the Pool's respective fiscal year-end, not the valuation/measurement date.

The Actuarially Determined Contribution (ADC) dollar amount is calculated by multiplying the Pool's Full Retirement Rate (excluding portion of rate for Supplemental Death Benefits Fund) by the applicable payroll amount. The Pool contributes to the TMRS Plan at the actuarially determined Full Retirement Rate. The difference between the ADC and Pool contributions equals the contribution deficiency/excess.

	Fiscal Year End									
	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025

Texas Municipal League Intergovernmental Risk Pool  
Notes to the Financial Statements  
For the Fiscal Year Ended September 30, 2025

**REQUIRED SUPPLEMENTARY INFORMATION**  
**September 30, 2025**

**SCHEDULE OF EMPLOYER OTHER POSTEMPLOYMENT BENEFITS (OPEB) CONTRIBUTIONS**

The schedule below shows the Pool's required annual contributions from the actuarial valuation, compared with the actual contributions remitted. The schedule is based on the Pool's respective fiscal year-end, not the valuation/measurement date.

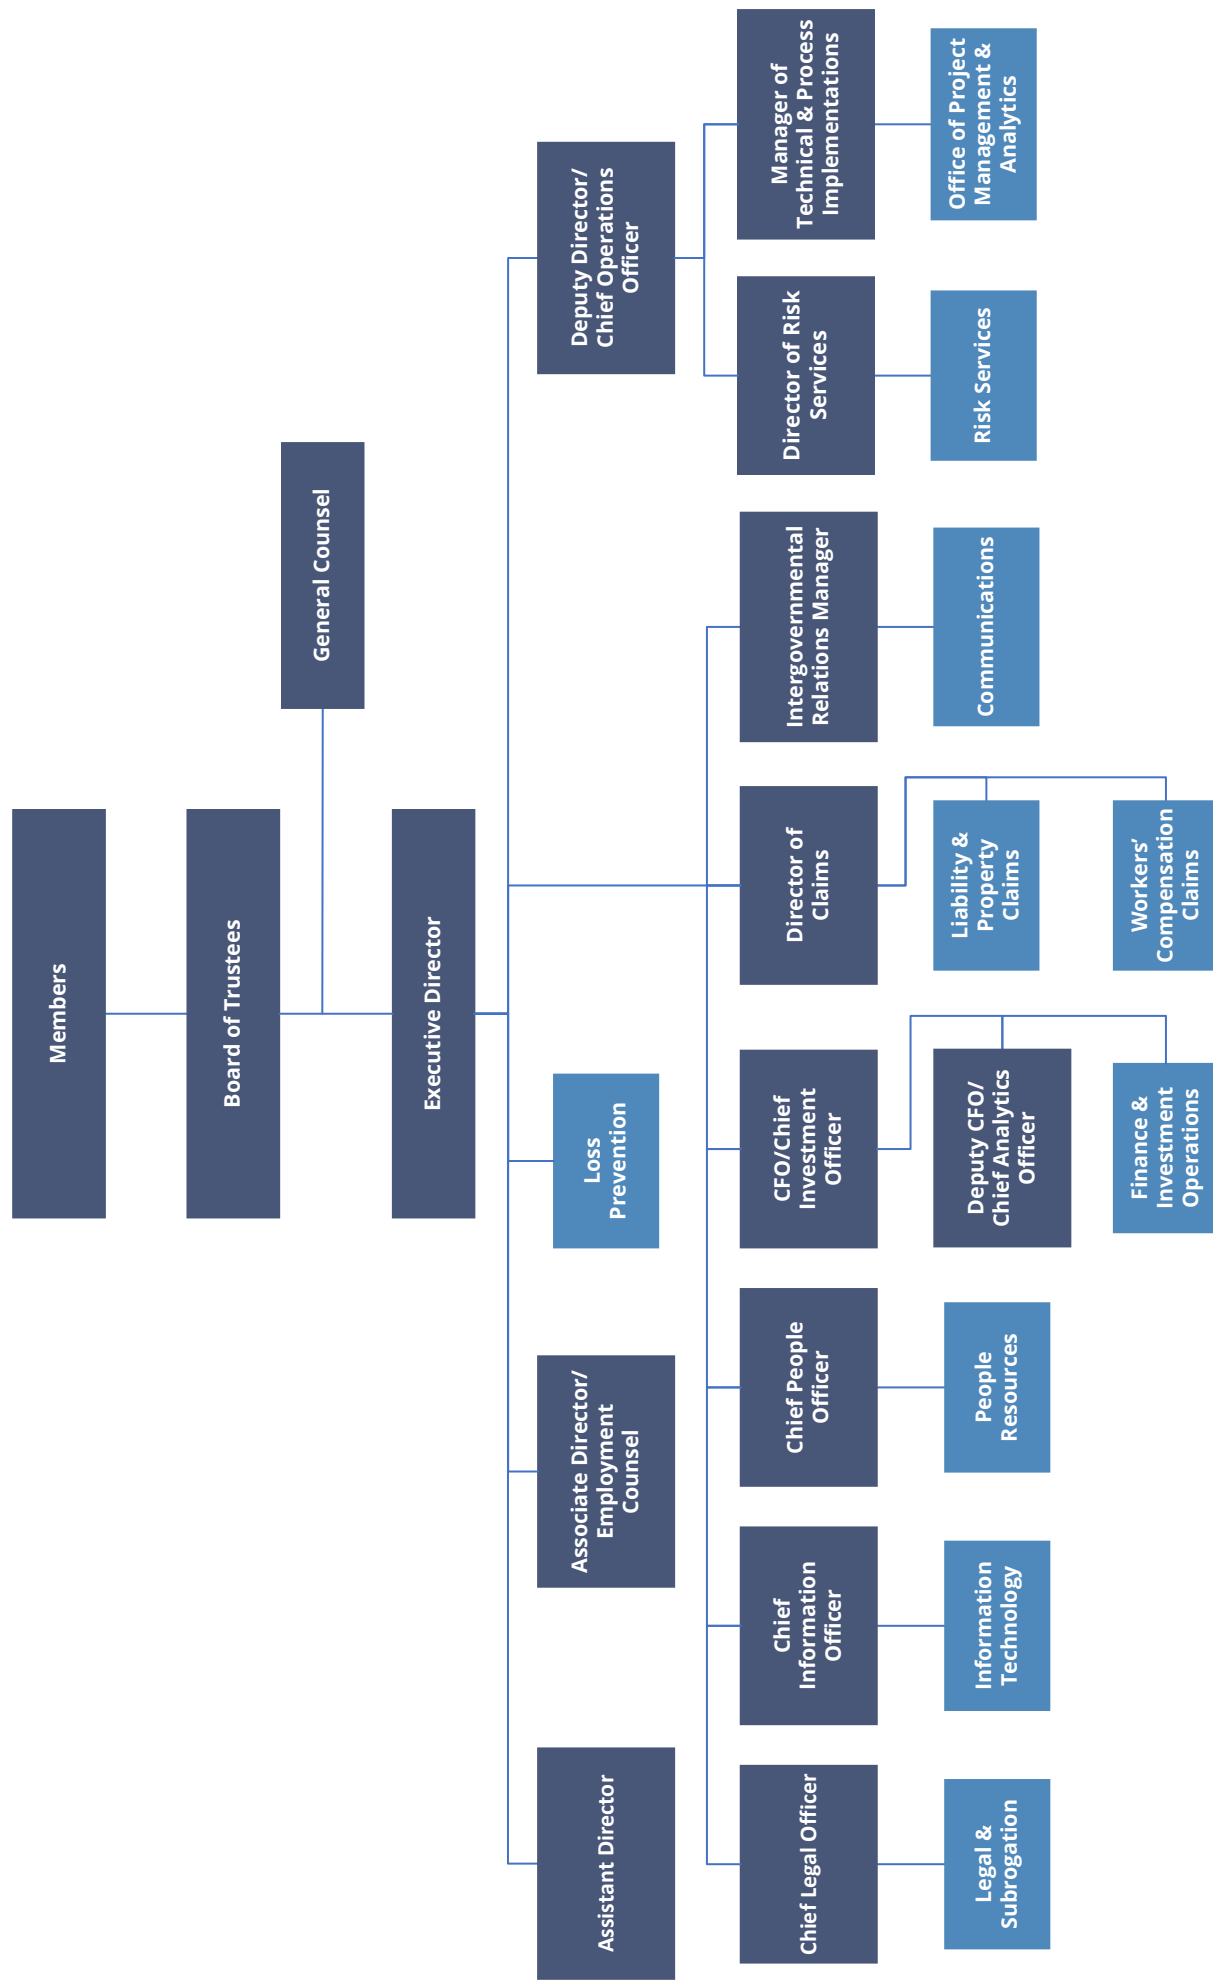

The Actuarially Determined Contribution (ADC) dollar amount is calculated by multiplying the Pool's Supplemental Death Benefits Fund rate by the applicable payroll amount. The Pool contributes to the TMRS Plan at the actuarially determined Supplemental Rate. The difference between the ADC and Pool contributions equals the contribution deficiency/excess.

	Fiscal Year End								
	2018	2019	2020	2021	2022	2023	2024	2025	
Actuarially Determined Contribution	\$ 48,358	\$ 52,270	\$ 54,143	\$ 48,061	\$ 47,842	\$ 92,592	\$ 96,899	\$ 82,042	
Contributions in relation to the actuarially determined contribution	\$ 52,005	\$ 52,842	\$ 55,897	\$ 49,512	\$ 50,024	\$ 85,301	\$ 101,896	\$ 90,919	
Contribution deficiency (excess)	\$ (3,647)	\$ (572)	\$ (1,754)	\$ (1,451)	\$ (2,182)	\$ 7,290	\$ (4,997)	\$ (8,877)	
Covered employee payroll	\$ 24,179,194	\$ 24,890,637	\$ 25,782,528	\$ 26,700,723	\$ 26,578,845	\$ 28,058,036	\$ 29,363,291	\$ 31,554,698	
Contributions as a percentage of covered employee payroll	0.22%	0.21%	0.22%	0.19%	0.19%	0.30%	0.35%	0.29%	
Actuarially Determined Contribution Rate	0.20%	0.21%	0.21%	0.18%	0.18%	0.33%	0.33%	0.26%	

**Notes to Schedule**

Methods and assumptions used to determine the contribution rates for the December 31, 2024, valuation date can be found at Note 11.
